Digital Revolution Sales And Services Inc Answer

Hoover's

Digital Revolution Sales And Services Inc Answer:

AI in Marketing, Sales and Service Peter Gentsch, 2018-10-22 AI and Algorithmics have already optimized and automated production and logistics processes. Now it is time to unleash AI on the administrative planning and even creative procedures in marketing, sales and management. This book provides an easy to understand guide to assessing the value and potential of AI and Algorithmics. It systematically draws together the technologies and methods of AI with clear business scenarios on an entrepreneurial level. With interviews and case studies from those cutting edge businesses and executives who are already leading the way, this book shows you how customer and market potential can be automatically identified and profiled, how media planning can be intelligently automated and optimized with AI and Big Data, how chat bots and digital assistants can make communication between companies and consumers more efficient and smarter, how you can optimize Customer Journeys based on Algorithmics and AI, and how to conduct market research in a more efficient and smarter way. A decade from now, all businesses will be AI businesses. Gentsch shows you how to make sure yours makes that transition better than your competitors.

Managing Industrial Services Thomas Friedli, Philipp Osterrieder, Moritz Classen, 2021-06-23 The increasing importance of industrial services and rapid digitalization towards smart and remote services pose opportunities as well as challenges to the manufacturing sector. This book provides a holistic understanding of industrial service management and guides companies into building capabilities and management practices for smart and remote services. By combining insights from research and practice, it offers a unique perspective on the core and enabling activities of manufacturing companies for growth in the service business. In essence, the first part covers action-based research findings regarding service strategy, organizational design, service innovation, service sales, services operations, and customer relationship management, together with insights into value networks. The second part introduces outstanding practices from leading manufacturing companies in industrial and smart services. The book concludes with a summary of key messages and recommendations to navigate the landscape of industrial and smart service management successfully.

Handbook of Research on IoT, Digital Transformation, and the Future of Global Marketing El-Gohary, Hatem, Edwards, David, Ben Mimoun, Mohamed Slim, 2021-06-25 The business world today is changing enormously due to many factors that affect every element of the business cycle worldwide. From globalization to recession, in addition to other environmental forces, companies today face numerous challenges that have a great impact on business. Among the factors that are affecting the current way business is conducted are the emergence of marketing tools including the internet of things (IoT), virtual reality, mobile applications, social media, electronic word of mouth (eWoM), artificial intelligence, digital marketing, and more that have a great impact not only on customers but also on companies. It is imperative for businesses to embrace the utilization of these tools in order to expand their customer base and provide unique, successful consumer experiences. The Handbook of Research on IoT, Digital Transformation, and the Future of Global Marketing provides comprehensive coverage of current global marketing
