The Cold War Begins, 1945–1960

STARTUP QUESTION - Step into the Place:

Read and discuss the primary sources on pages 394-395

How do the United States and the Soviet Union each seem to be interpreting the intentions of the other nation?

US perspective -> The driving force behind the imperialism camp is the USA. The cardinal purpose of the imperialism camp is to strengthen imperialism, to hatch a new imperialism war, to combat socialism and democracy, and to support the reactionary and antidemocratic profascist regimes.

USSR perspective -> The USSR still believes in antagonistic capitalist encirclement with which in the long run there can be no permanent peaceful existence.

Lesson 1 The Origins of the Cold War

I. Building a New World

A. In July of 1944, President Roosevelt invited world leaders to Bretton Woods, NH, with the purpose of organizing the world's postwar economic systems. At the conference leaders created two key institutions: the **World Bank**, which lends money to weaker nations, and the **International Monetary Fund (IMF)** which helps nations with trade deficits (import more than they export).

B. Also in 1944 delegates from 39 nations met in the city of **Washington DC** to discuss a new organization called the **United Nations (UN)**. This organization would have a **General Assembly** of member nations and also a **Security Council** of eleven members.

C. When the Soviet Union liberated **Poland** in 1944, they encouraged the establishment of a **Communist Government** government. The pre-war government had fled to **Britain**. Churchill and Roosevelt agreed to **recognize the government** if members of the pre-war government were included and that **two elections** be held as soon as possible.

D. The leaders issued the Declaration of Liberated Europe that asserted all nations have the right to **choose government**.

E. The Allies divided Germany into **four** zones. Each one would be controlled by one Allied nation. They also insisted Germany pay **heavy reparations** for the war.

F. Tension between the United States and the Soviet Union led to the **Cold War**. The Soviets believed in a **communist** economic system. U.S. leaders believed that an **enterprise** system was the key to peace.

II. Truman Takes Control

A. In July 1945 Truman and Stalin met at the **Potsdam Conference**. Truman believed **an industry** was crucial for Germany, while the Soviet Union believed it needed **reparations** from Germany.

B. The Soviets refused to uphold the Declaration of Liberated Europe (DLE). The countries of Eastern Europe would set up **Communist** governments and came to be known as **satellite nations**. Churchill later described it as an **iron curtain** falling across Eastern Europe.

The New Left and the Origins of the Cold War Robert James Maddox, 2015-03-08 As more and more people are questioning the assumptions of present U S foreign policy they are reexamining the roots of these policies in the diplomacy of the Cold War This scrutiny has made the origins of the Cold War the most controversial issue in American diplomatic history Now a complete new dimension has been added to the debate by the charges leveled by Robert James Maddox in *The New Left and the Origins of the Cold War* How did the Cold War begin Who or what was responsible Could it have been avoided Was it a temporary condition created by a combination of individual personalities and historical factors or did it represent the clash of fundamentally irreconcilable political systems The orthodox explanation of the Cold War is that it was the brave and essential response of free men to Communist aggression A number of scholars more or less identified with the New Left have challenged the conventional explanation by asserting that the U S bears the major responsibility for its onset One group of revisionists sees this as the result of a failure of statesmanship on the part of Truman and the advisors around him the other that the Cold War was the inevitable result of the American system as it developed over the years Their conclusions have often been challenged in matters of interpretation Robert Maddox however believes that an examination of the manner in which new interpretations are reached should precede dialogues over the ideas themselves Consequently he has examined seven of the most prominent New Left works *The Tragedy of American Diplomacy* by William Appleman Williams *The Cold War and Its Origins* by D F Fleming *Atomic Diplomacy* by Gar Alperovitz *The Free World Colossus* by David Horowitz *The Politics of War* by Gabriel Kolko *Yalta* by Diane Shaver Clemens and *Architects of Illusion* by Lloyd C Gardner After detailed comparisons of the evidence they present with the sources from which it was taken he concludes that these books are based on pervasive misuse of the source materials and fail to measure up to the most elementary standards of good scholarship Originally published in 1973 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve
