When Cowboys Come Home Aaron

George, 2023-11-10 When Cowboys Come Home Veterans Authenticity and Manhood in Post World War II America is a cultural and intellectual history of the 1950s that argues that World War II led to a breakdown of traditional markers of manhood and opened space for veterans to reimagine what masculinity could mean One particularly important strand of thought which influenced later anxieties over other direction and conformity argued that masculinity was not defined by traits like bravery stoicism and competitiveness but instead by authenticity shared camaraderie and emotional honesty To elucidate this challenge to traditional frontiersman masculinity Aaron George presents three intellectual biographies of important veterans who became writers after the war James Jones the writer of the monumentally important war novel From Here to Eternity Stewart Stern one of the most important screenwriters of the fifties and sixties including for Rebel without a Cause and Edward Field a bohemian poet who used poetry to explore his love for other men Through their lives George shows how wartime disabused men of the notion that war was inherently a brave or heroic enterprise and how the alienation they felt upon their return led them to value the authentic connections they made with other men during the war

Abuses of the Erotic Josh Cerretti, 2019-07-01 Events ranging from sexual abuse at Abu Ghraib to the end of Don't Ask Don't Tell hint that important issues surrounding gender and sexuality remain at the core of political and cultural problems Nonetheless intersectional analyses of militarism that account for questions of race class and gender remain exceedingly rare Abuses of the Erotic fills this gap by offering a comprehensive picture of how military values have permeated the civilian cultural sphere and by investigating connections between sexuality and militarism in the United States since the late 1980s Josh Cerretti takes up the urgent task of applying an interdisciplinary transnational framework to the role of sexuality in promoting expanding and sustaining the war on terror to understand the links between what Cerretti calls domestic militarism and later projects of state backed violence and intervention This work brings together scholarship on domestic and international militarization in relation to both homosexuality and heterosexuality to demonstrate how sexual and gender politics have been deployed to bolster U.S. military policies and by tracking over a decade of militarized sexuality how these instances have foundationally changed how we think of sexual and gender politics today

Children of Reunion Allison Varzally, 2017-02-01 In 1961 the U.S. government established the first formalized provisions for intercountry adoption just as it was expanding America's involvement with Vietnam Adoption became an increasingly important portal of entry into American society for Vietnamese and Amerasian children raising questions about the United States obligations to refugees and the nature of the family during an era of heightened anxiety about U.S. global interventions Whether adopting or favoring the migration of multiracial individuals Americans believed their norms and material comforts would salve the

wounds of a divisive war However Vietnamese migrants challenged these efforts of reconciliation As Allison Varzally details in this book a desire to redeem defeat in Vietnam faith in the nuclear family and commitment to capitalism guided American efforts on behalf of Vietnamese youths By tracing the stories of Vietnamese migrants however Varzally reveals that while many had accepted separations as a painful strategy for survival in the midst of war most sought and some eventually found reunion with their kin This book makes clear the role of adult adoptees in Vietnamese and American debates about the forms privileges and duties of families and places Vietnamese children at the center of American and Vietnamese efforts to assign responsibility and find peace in the aftermath of conflict
