

CHAPTER 2

REVIEW OF RELATED LITERATURE

INTRODUCTION

A review of literature is a classification and evaluation of what accredited scholars and researchers have written on a topic, organized according to a guiding concept such as a research objective, thesis or the problem / issue to be addressed. It is the scholarly core of the dissertation. It is an analysis and synthesis of the source materials, written in a specific style which flows from broad to narrow and takes into account both the theoretical and empirical issues. The main purpose of the review of literature is to report on original research or experimentation in order to make such information available to the rest of the scholarly world.

According to Best & Kahn (1989), Review of related literature is the summary of writings of recognized authorities and of previous research provides evidence that the researcher is familiar with what is already known and what is still unknown and untested. Since effective research is based upon past knowledge, this step helps to eliminate the duplication of what has been done and provides useful hypotheses and helpful suggestions for significant investigation. Citing studies that show substantial agreement and those that seem to present conflicting conclusions helps to sharpen and define understanding of existing knowledge in the problem area, provides a background for the research project and makes the reader aware of the status of the issue. Only those studies that are plainly relevant, competently executed and clearly reported should be included.

In searching related literature, the researcher should note certain important elements. They are

- Reports of studies of closely related problems that have been investigated.
- Design of the study, including procedures employed and data gathering instruments used.
- Populations that were sampled and sampling methods employed
- Variables that were defined
- Extraneous variables that could have affected the findings
- Faults that could have been avoided
- Recommendations for further research

The studies collected and reviewed are presented under the following headings:

Chapter 2 Overview And Research Review

Chapter 2 Overview And Research Review:

Program scheduling and simulation in an operating system environment bernard lampard,2014-02-03 Research Paper postgraduate from the year 2011 in the subject Computer Science Commercial Information Technology grade A Massachusetts Institute of Technology language English abstract CPU scheduling is a technique used by computer operating systems to manage the usage of the computer's central processing unit In a multi programming environment whereby several processes are running on the same processor it is essential to use scheduling criteria to avoid collisions in the computer's operations This will help users in a given information technology oriented firm to share server spaces and resources like printers and file storage spaces In the multi tasking environment a program called CPU scheduler selects one of the ready processes and allocates the processor to it There are a number of occasions when a new process can or must be chosen to run When a running process block and changes its state to Blocked When a timer for a running process expires When a waiting process unblocks and changes its state to Ready and When a running process terminates and changes its state to Exit Wikipedia 2013 Different types of scheduling programs referred to as algorithms can be employed in CPU scheduling instances Among the most popular scheduling algorithms is Shortest Job First SJF SJF gives the processor to the process with the shortest next time allocation known as the burst If there are processes with similar CPU bursts in the event queue the scheduler uses First Come First Served algorithm which allocates the first process to arrive in the queue to the processor regardless of its burst time It operates under the assumption that the length of the next CPU burst of each of the processes in ready queue is known CPU scheduling 2013 The SJF algorithm can be used in both pre-emptive and non-preemptive methods The algorithm can be preemptive or not Shortest Job First with preemption uses priority measure to determine the next process to be given the CPU The processes will be having different CPU bursts and different priority levels allocated to them The process with the least priority magnitude is always picked next A process already allocated the processor can be preempted the CPU and allocation done to another process with higher priority when such a process arrives in the queue SJF with non-preemptive operates in the normal procedure whereby the job with the least CPU burst in the waiting queue is always picked next for allocation of the CPU and the rest of the processes have to wait no matter their urgency Based on the introduction above it is essential to use the right CPU scheduling strategy to help us achieve

Review of the Environmental Protection Agency's Draft IRIS Assessment of Tetrachloroethylene National Research Council,Division on Earth and Life Studies,Board on Environmental Studies and Toxicology,Committee to Review EPA's Toxicological Assessment of Tetrachloroethylene,2010-04-18 Tetrachloroethylene is a volatile chlorinated organic hydrocarbon that is widely used as a solvent in the dry cleaning and textile processing industries and as an agent for degreasing metal parts It is an environmental contaminant that has been detected in the air groundwater surface waters and soil In June 2008 the U S Environmental Protection Agency released its draft Toxicological Review of Tetrachloroethylene

Perchloroethylene CAS No 127 18 4 in Support of Summary Information on the Integrated Risk Information System IRIS The draft IRIS assessment provides quantitative estimates of cancer and noncancer effects of exposure to tetrachlorethylene which will be used to establish airquality and water quality standards to protect public health and to set cleanup standards for hazardous waste sites At the request of EPA the National Research Council conducted an independent scientific review of the draft IRIS assessment of tetrachloroethylene from toxicologic epidemiologic and human clinical perspectives The resulting book evaluates the adequacy of the EPA assessment the data and methods used for deriving the noncancer values for inhalation and oral exposures and the oral and inhalation cancer unit risks posed by tetrachloroethylene evaluates whether the key studies underlying the draft IRIS assessment are of requisite quality reliability and relevance to support the derivation of the reference values and cancer risks evaluates whether the uncertainties in EPA s risk assessment were adequately described and where possible quantified and identifies research that could reduce the uncertainty in the current understanding of human health effects associated with tetrachloroethylene exposure Introduction to Educational Research Craig A. Mertler, 2021-11-14 This Third Edition of Craig Mertler s practical text helps readers every step of the way as they plan and execute their first educational research project Offering balanced coverage of qualitative and quantitative methods an emphasis on ethics and a wealth of new examples and concrete applications the new edition continues to use conversational nontechnical language to help students clearly understand and apply research concepts principles procedures and terminology Expanded coverage of foundations of research an increased focus on integrating qualitative and quantitative research and updated coverage of research questions and the tools of qualitative research bring the book thoroughly up to date while streamlined coverage of statistics shows students how to do quantitative analysis in a straightforward way **An investigation of the effectiveness of social media marketing on the marketing performance of Selected Higher Education Institutions in Zambia** Francis Mukosa, 2022-10-12 Doctoral Thesis Dissertation from the year 2022 in the subject Communications Public Relations Advertising Marketing Social Media grade Pass course Marketing language English abstract HEIs in Zambia have adopted the use of social media in advertising online learning and also for administrative purposes Social media has developed in the recent years to a level where it presents itself as the biggest virtual market with the potential to increase geographic markets and revenue for organizations While cases of HEIs that have used social media marketing for purposes of marketing exist in other places there is no significant research in the Zambian environment that shows empirical evidence that the use of social media marketing can impact marketing performance in HEIs The purpose of this study is to investigate the effectiveness of social media marketing on marketing performance in HEIs and the findings are meant to build a model for social media marketing for HEIs in Zambia in see figure 5 2 in Chapter 5 Data in this research was collected from twelve HEIs using both qualitative and quantitative research methods since this research is a mixed research with both deductive and inductive arguments The data collection techniques included a semi structured interview

for qualitative data and a semi structured questionnaire for the quantitative data Data analysis was carried out using different techniques in SPSS for the quantitative data and content analysis using Google analytics for the qualitative data The implications of the findings in chapter four mean that HEIs in Zambia must begin to use social media not only for administrative or advertising purposes but they must use it effectively as a tool to increase their market share and increase their revenue The findings and data analysis in this research indicated that social media is effective in marketing HEIs in Zambia however these institutions must adopt the suggested model in Figure 5 2 in Chapter 5 if they are to enhance social media performance for marketing

Best-Practice Framework for Developing and Implementing E-Government

Abdelbaset Rabaiah,2010-09 In this study of electronic systems in government case studies are used to compare e government across 21 countries The goal of the research to see if there is a global convergence in the way governments use electronic information and the findings suggest that most countries have much in common In particular concepts regarding service delivery internal and external efficiency and government networking were found to be similar across the sample governments

Introduction to Educational Research Craig A. A. Mertler,2024

Discovery and Development of Anti-inflammatory Agents from Natural Products Goutam Brahmachari,2019-07-11 *Discovery and Development of Anti-inflammatory Agents from Natural Products* the latest volume in the Natural Product Drug Discovery series presents cutting edge research advances in the field of bioactive natural products and natural drug formulations with this volume focusing on molecules of natural origin and their synthetic analogues that have the potential to act against the pathogens responsible for inflammatory diseases All aspects of each are covered including isolations and structure elucidations in vitro and in vivo biological activity synthetic optimization investigations of pharmacodynamics and kinetics and the structure activity relationships of anti inflammatory natural products Written by active researchers and leading experts this book brings together an overview of current discoveries and trends in this field It will be a valuable resource for researchers working to discover promising leads for the development of pharmaceuticals in the prevention and treatment of anti inflammatory diseases Features contributions from active researchers and leading experts working in medicinal natural products and herbal formulations Includes recent cutting edge advances on medicinal natural products along with preventative therapies for different kinds of inflammation directed diseases Offers an authoritative source of information on the industrial application of natural products for medicinal purposes

The Relationship between Main Contractors and Subcontractors in the Zambian Construction Industry

Tafadzwa Mudzvokorwa,2017-07-10 Master s Thesis from the year 2016 in the subject Engineering Civil Engineering University of Zambia course Master of Engineering Project Management language English abstract In recent years there have been a substantial number of projects conducted in the Zambian construction industry Due to the magnitude and complexity of many of these projects contractors have resorted to subcontracting to share responsibilities and mitigate project risks The Zambian government has also invigorated the practice

of subcontracting in the construction industry as it plays an important role in increasing economy viability and building capacity. Instead of improving project success, subcontracting can act as a catalyst for poor project outcomes. Though there are many reasons that contribute to problems from subcontracting, a poor relationship between main contractors and subcontractors can be seen as a notorious contributor affecting construction works. The study aimed at investigating the relationship between the main contractors and subcontractors in the Zambian construction industry and recommend a framework that can be implemented to better the relationship. The study also examined the effects of a poor interface between main contractors and subcontractors in Zambia. Data collection techniques used included literature review, interviews and questionnaire surveys. The relative importance index was used to determine the ranking of the results of the study. Using the results adduced from the study, a main contractor-subcontractor non-contractual partnering model was developed. The study established that the relationship between main contractors and subcontractors in Zambia is poor, therefore needing attention. Interface problems were caused by payment issues, poor communication, unexpected price escalations and poor construction work. In order to address interface problems, the study found that there was need for better communication between the parties, timely payments and subcontractors access to labour and machinery. However, the study had some limitations that need consideration when interpreting the results found. The limitations included scarcity of specific literature on subcontracting in the Zambian construction industry, the size of the sample only being limited to Lusaka. Nevertheless, these limitations could be addressed through further studies.

The attractiveness of South Africa as offshore destination for call centre services Anita Hintringer, 2013-06-26 Master's Thesis from the year 2012 in the subject Business economics Miscellaneous grade 1.0 language English abstract This research report is entitled 'An investigation into the attractiveness of South Africa as offshore destination for call centre services to the UK'. An important objective of this research report was to investigate the factors and key issues that determine South Africa's attractiveness to deliver offshore call centre services to the UK, largely from the perspective of existing call centre outsourcers with their recent and first-hand experience and expertise in this industry. The ultimate objective was to determine the attractiveness of South Africa for UK call centre offshoring. To achieve the above, it was determined that a combination of qualitative investigative research combined with a quantitative approach would be conducted with data gathering. Primary research was done by conducting in-depth interviews with individuals holding management positions with established call centre outsourcers in South Africa to determine the attractiveness of the location. Overall, it was found that South Africa is averagely attractive for UK call centre service offshoring. Outsourcers highlight that at present offshoring is because of the global economic climate, a very difficult market to be in. However, if South Africa addresses challenges successfully, e.g. skills shortage in middle management, it can build the right foundation to grow the industry for the future. The location is attractive as it offers cost savings when compared to the UK client market, but other locations outperform South Africa in this respect. Therefore, the location is only

attractive for a UK niche market as a cheaper but nonetheless premium location that delivers additional benefits relevant to UK business which other locations do not offer These can be found in service delivery and quality and South Africa's alignment with Western industry standards

The impact of globalisation on Germany's Electrical Installation System companies Adriano Denaro, 2020-10-08 Master's Thesis from the year 2015 in the subject Business economics Operations Research grade 2.0 Buckinghamshire New University language English abstract This thesis aims to research the question does globalization impact the strategies of the German Electrical Installation companies and how are the conditions for further growth This thesis conducted a mixed method approach to achieve this research aim For the theoretical sensitivity this study uses PESTEL Yip's Internationalisation Driver's as well as Porter's Five Forces Framework followed by survey research Building upon these a survey was conducted within the German electrical industry to research on the study's research question empirically With obtaining these empirical data this thesis gained management and expert insights Based on the research objectives the evaluation represents that with this survey it was possible to identify discuss and analyze the strategic position the strategic choices and the conditions for further growth of Germany's Electrical Installation System companies The first main recognition gained in this dissertation is that innovation projects such as the project Industry 4.0 from the German Federal Government is not considered in the strategies of German Electrical Installation companies This is a disadvantage because other nations working intensively on this topic This is seen most critical for the future of the German Electric Industry The recommendation is to rework the current strategies and to include innovation projects such as the project Industry 4.0 The next important outcome of the elaboration is that the globalisation affects the strategies of German Electrical Installation companies and the companies under research have no really internationalisation strategy although they are international active The survey shows that the essential inputs of the respondents lead to a preferred internationalisation strategy The simple export This result with respect to the respondents which have a strategy leads not only to advantages but also it leads to disadvantages The advantages are on the one hand cost aspects There are no operational facilities needed in the host country and by using the Internet they are able to gain access into the international market But on the other hand this strategy does not allow the firm to benefit from the location advantages of the host nation and limits the opportunities to gain knowledge of the local market and respectively of the customers

Retail Category Management Alexander Hübner, 2011-08-30 Retail shelf management means cost efficiently aligning retail operations with consumer demand As consumers expect high product availability and low prices and retailers are constantly increasing product variety and striving towards high service levels the complexity of managing retail business and its operations is growing enormously Retailers need to match consumer demand with shelf supply by balancing variety number of products and service levels number of items of a product and by optimizing demand and profit through carefully calibrated prices As a result the core strategic decisions a retailer must make involve assortment sizes shelf space assignment and pricing levels

Rigorous quantitative methods have emerged as the most promising solution to this problem. The individual chapters in this book therefore focus on three areas: 1. combining assortment and shelf space planning, 2. providing efficient decision support systems for practically relevant problem sizes, and 3. integrating inventory and price optimization into shelf management.

PDQ Evidence-based Principles and Practice Ann McKibbin, Nancy Wilczynski, 2009. PDQ Evidence Based Principles and Practice addresses the concepts of evidence based health care in a gentle non technical manner. One of its two major purposes is to provide a background to understand health care research and how best to evaluate and apply new research findings in health. The audience is librarians and other information professionals who work with health professionals. Clinicians seeking a gentle approach to working with health research findings will also benefit. In addition, the book outlines how best to identify important studies in health care published in the large bibliographic databases such as MEDLINE and the Internet. Readers found the first edition useful in understanding health research and seeking this information. The second edition strengthened both purposes. It also adds 4 new chapters to the existing 9 that cover new areas of understanding and producing health research. All chapters from the previous edition have been revised. Several new chapters on hot topics have been added: Clinical Prediction Guides, Decision Analyses, Differential Diagnosis and Disease Manifestation, and Health Technology Assessment. Proven and validated search strategies for use in the large electronic biomedical databases have been included in the edition. Lists of possible searching terms have been enhanced and enlarged. We have also added an appendix of terms used in the book using plain language descriptions as well as searching tips and sites for retrieval in the categories of health research. This book helps the reader develop optimal effective MEDLINE search strategies. It offers step by step suggestions for retrieving sound clinical studies on the etiology, prognosis, diagnosis, prevention, and management of disorders encountered in adult general medicine. Key Features: Gentle non technical introduction to the concepts of evidence based health care. Provides a background to understanding health care research. Provides a guide for evaluating health care research. Provides searching tips and techniques to enhance and speed searching for health care research in the large electronic databases. Collects searching terms effective for retrieval of clinically important material from MEDLINE and related databases.

Research Gap Analysis for Zero-net Energy Buildings Smita Gupta, Jeremy Smith, Itron, Inc, 2019

A Hypothetical Enhanced Renewable Energy Utilization (EREU) Model for Electricity Generation in Thailand Thomas Andexer, 2008-10-29. Master's Thesis from the year 2008 in the subject Environmental Sciences, grade Passed. Assumption University of Thailand, College of Internet Distance Education, CIDE School of Business Administration course. Master Thesis Project language English. Abstract: This thesis presents a research project entitled A Hypothetical Enhanced Renewable Energy Utilization EREU Model for Electricity Generation in Thailand. This research is motivated by Thailand's rapidly increasing electricity consumption caused by the country's long standing above average economic growth. Consequently, the rising electricity demand can only be satisfied by continuously growing electricity imports and thus creating a significant

burden to Thailand's national budget. Furthermore, Thailand is heavily dependent on natural gas reserves for electricity generation; however, these are expected to be depleted within only three decades, and global price levels for conventional fuels are increasingly volatile with an ascending tendency as well. Therefore, Thailand faces an urgent need to strategically plan for the broad utilization of domestic renewable energy resources, which is essential for a more diversified and thus sustainable electricity generation as well as for the nation's endeavor to become an energy hub within the South East Asian region. Under these circumstances, this research conducts a comprehensive literature review regarding the past development as well as the current situation of renewable energy utilization in Thailand, which concludes in the identification of the importance of renewable energy in the given context and closes with both a distinctive needs assessment and a conceptual framework for Thailand's future renewable energy strategy. Subsequently, the research introduces a unique primary research endeavor in the form of an explorative expert interview survey, which succeeds in a substantial collection of qualitative and in-depth data. These valuable data are first objectively analyzed and second subjectively interpreted and summarized to become the major source for the derivation of a multitude of potential strategic recommendations for an enhanced future renewable energy utilization development in Thailand. Finally, the entirety of these recommended strategic approaches, based on both the secondary and primary research, are assembled to develop the Enhanced Renewable Energy Utilization (EREU) model for electricity generation in Thailand as the fundamental finding of this thesis and research project, respectively.

Chapter 2 Overview And Research Review Introduction

Chapter 2 Overview And Research Review Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Chapter 2 Overview And Research Review Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Chapter 2 Overview And Research Review : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Chapter 2 Overview And Research Review : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Chapter 2 Overview And Research Review Offers a diverse range of free eBooks across various genres. Chapter 2 Overview And Research Review Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Chapter 2 Overview And Research Review Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Chapter 2 Overview And Research Review, especially related to Chapter 2 Overview And Research Review, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Chapter 2 Overview And Research Review, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Chapter 2 Overview And Research Review books or magazines might include. Look for these in online stores or libraries. Remember that while Chapter 2 Overview And Research Review, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Chapter 2 Overview And Research Review eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Chapter 2 Overview And Research Review full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Chapter 2 Overview And Research Review eBooks, including some popular titles.

FAQs About Chapter 2 Overview And Research Review Books

What is a Chapter 2 Overview And Research Review PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Chapter 2 Overview And Research Review PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Chapter 2 Overview And Research Review PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Chapter 2 Overview And Research Review PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Chapter 2 Overview And Research Review PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
