**El-Hi Textbooks & Serials in Print, 2005** ,2005      El-Hi Textbooks and Serials in Print ,2003      **Resources in Education** ,1997-04      *Theoria* Jürgen Mittelstrass,2018-08-06 Science is knowledge gained and justified methodically It is achieved by research and theory formation But what is a methodical procedure and what are methodically established justifications What kind of principles must be observed in order to obtain the degree of objectivity that is generally claimed by science What is the relation between science in the research mode and science in presentation mode i e in its theoretical form Do the same principles hold here And how are they justified Is it even possible to speak of justification in a theoretical sense Or do we have to be content with less with corroboration and confirmation Is the distinction between the context of discovery and the context of justification the last word in methodical and theoretical matters And how does this distinction relate to that between research and presentation the constitution of scientific objects on the one hand and theoretical propositions about them on the other The analyses and constructions in this book take up these questions They are explicitly intended as philosophical contributions not only in the sense implied by the disciplinary use of the term philosophy of science but also in the sense of a reflection on science that alongside more technical aspects of methodologies and elements of theories also has an eye for anthropological and cultural aspects      On the Theory of Content Transformation in Education Tomáš Janík,Jan Slavík,Petr Najvar,Tereza Češková,2024-03-21 This volume presents a novel theoretical micro analytical model the 3A Methodology for assessing the quality of school education Drawing on philosophers as well as theoretical and pedagogical traditions from European and American contexts the authors construct a model that is relevant to teachers researchers and teacher educators regardless of cultural setting The chapters explain the 3A Methodology as a specific research tool developed to study classroom situations in the form of case studies revealing findings that demonstrate prototypical failures didactic formalism that threaten to compromise the quality of learning as well as prototypical didactic virtues that verifiably support students learning Ultimately building on the distinction of three modes of existence of educational content the intersubjective the subjective and the objective modes the book helps rediscover didactics as a transdisciplinary theory of content transformation and contributes to the improvement of teaching and learning in the classroom long term This volume will be of interest to scholars researchers and postgraduate students working in school education educational psychology and didactics more broadly Teacher educators and school administrators may also find the book of interest Chapters 1 3 and 6 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

**Incommensurability and Related Matters** Paul Hoyningen-Huene,H. Sankey,2013-04-17 Incommensurability and Related Matters draws together some of the most distinguished contributors to the critical literature on the problem of the incommensurability of scientific theories It addresses all the various problems raised by the problem of incommensurability

such as meaning change reference of theoretical terms scientific realism and anti realism rationality of theory choice cognitive aspects of conceptual change as well as exploring the broader implications of incommensurability for cultural difference While it offers new work and new directions of discussion on the topic of incommensurability the book also recapitulates the history of the discussion of the topic that has taken place within the literature on incommensurability
