Practice Page**

**32-1**

**Coulomb's Law**

1. The diagram is of a hydrogen atom.

- Label the proton in the nucleus with a + sign and the orbital electron with a - sign.
- The electrical interaction between the nucleus and the orbital electron is a force of \_\_\_\_\_ (attraction) \_\_\_\_\_ (repulsion).
- According to Coulomb's law,

$$F = k \frac{q_1 q_2}{r^2}$$

if the charge of either the nucleus or the orbital electron were greater, the force between the nucleus and the electron would be \_\_\_\_\_ (greater) \_\_\_\_\_ (less).

and if the distance between the nucleus and electron were greater the force would be \_\_\_\_\_ (greater) \_\_\_\_\_ (less).

If the distance between the nucleus and electron were doubled, the force would be \_\_\_\_\_ (1/4 as much) \_\_\_\_\_ (1/2 as much) \_\_\_\_\_ (two times as much) \_\_\_\_\_ (four times as much).

2. Consider the electric force between a pair of charged particles a certain distance apart. By Coulomb's law:

- If the charge on one of the particles is doubled, the force is \_\_\_\_\_ (unchanged) \_\_\_\_\_ (halved) \_\_\_\_\_ (doubled) \_\_\_\_\_ (quadrupled).
- If instead the charge on both particles is doubled, the force is \_\_\_\_\_ (unchanged) \_\_\_\_\_ (halved) \_\_\_\_\_ (doubled) \_\_\_\_\_ (quadrupled).
- If instead the distance between the particles is halved, the force is \_\_\_\_\_ (unchanged) \_\_\_\_\_ (halved) \_\_\_\_\_ (doubled) \_\_\_\_\_ (quadrupled).
- If the distance is halved and the charge of both particles is doubled, the force is \_\_\_\_\_ times as great.

**Destination Management and Marketing: Breakthroughs in Research and Practice** Management Association, Information Resources, 2020-03-06 The marketing of a destination necessitates strategic planning decision making and organization Effective positioning will result in a strong brand that develops an emotional and productive two way relationship Notwithstanding destination managers should possess relevant knowledge and understanding on traditional and contemporary marketing channels to better engage with prospective visitors Destination Management and Marketing Breakthroughs in Research and Practice focuses on utilizing destination branding and content marketing for sustainable growth and competitive advantage within the tourism and hospitality industry including tools and techniques for travel branding and best practices for better tourism management strategies Highlighting a range of topics such as service quality sustainable tourism and competitiveness model this publication is an ideal reference source for government officials travel agencies advertisers marketers tour directors hotel managers restaurateurs industry professionals including those within the hotel leisure transportation and theme park sectors policymakers practitioners academicians researchers and students

The World of Numbers Dale Carpenter, 1957      *Cumulated Index Medicus* ,2000      **Handbook of Research on Information Management for Effective Logistics and Supply Chains** Jamil, George Leal, Soares, António Lucas, Pessoa, Cláudio Roberto Magalhães, 2016-09-23 Evaluating the role of logistics and supply chain management skills or applications is necessary for the success of any organization or business As market competition becomes more aggressive it is crucial to evaluate ways in which a business can maintain a strategic edge over competitors The Handbook of Research on Information Management for Effective Logistics and Supply Chains highlights strategies tools and skills necessary for supply management within organizations and companies Featuring best practices and empirical research within the field this handbook is a critical reference source for scholars practitioners researchers information systems and telecommunication specialists and managers      **Practical Guide to the Evaluation of Clinical Competence E-Book** Eric S. Holmboe, Steven James Durning, 2023-11-24 Offering a multifaceted practical approach to the complex topic of clinical assessment Practical Guide to the Assessment of Clinical Competence 3rd Edition is designed to help medical educators employ better assessment methods tools and models directly into their training programs World renowned editors and expert contributing authors provide hands on authoritative guidance on outcomes based assessment in clinical education presenting a well organized diverse combination of methods you can implement right away This thoroughly revised edition is a valuable resource for developing implementing and sustaining effective systems for assessing clinical competence in medical school residency and fellowship programs Helps medical educators and administrators answer complex ongoing and critical questions in today s changing medical education system Is this undergraduate or postgraduate medical student prepared and able to move to the next level of training To be a competent and trusted physician Provides practical suggestions and assessment approaches

that can be implemented immediately in your training program tools that can be used to assess and measure clinical performance overviews of key educational theories and strengths and weaknesses of every method Covers assessment techniques frameworks high quality assessment of clinical reasoning and procedural competence psychometrics and practical approaches to feedback Includes expanded coverage of fast moving areas where concepts now have solid research and data that support practical ways to connect judgments of ability to outcomes including work based assessments clinical competency committees milestones and entrustable professional assessments EPAs and direct observation Offers examples of assessment instruments along with suggestions on how you can apply these methods and instruments in your own setting as well as guidelines that apply across the medical education spectrum Includes online access to videos of medical interviewing scenarios and more downloadable assessment tools and detailed faculty guidelines An eBook version is included with purchase The eBook allows you to access all of the text figures and references with the ability to search make notes and highlights and have content read aloud

Values and Virtues in Higher Education Research. Jean McNiff, 2016-06-10 Values and Virtues in Higher Education Research centres on practitioners studying and researching their practices in higher education settings in order to improve those practices for the benefit of others and themselves Making research public is a key aspect of ensuring the quality of educational research and educational practices Values and Virtues in Higher Education Research raises questions and develops conversations about why higher education practitioners should study and improve their work how this may be done and what might be some of the benefits of doing so What we do as practitioners is influenced by and linked with what we value what we believe is good Improving practices therefore involves becoming aware of and interrogating the values that enter into and inform those practices a study of practices becomes a study of the relationships between the practices in question and their values base From an international group of contributors in this growing field this book provides strong theoretical resources and case study material that shows how this transformation may be achieved including topics such as Theorising practices to show personal and organisational accountability Developing inter professional and inter disciplinary dialogues for social transformation Establishing communities of inquiry in higher education and other workplace settings Reconceptualising professional education as research informed practice Locating educational theory in the real world for human and environmental wellbeing Showing the evolution of theory through critical engagement this text will be a valuable companion for lecturers students and professional developers in higher education This book will form core reading for those who are interested in engaging in practice based research and as additional reading for those whose aim is to broaden their thinking in relation to the role of values and virtues in educational research Jean McNiff is an independent researcher and writer Professor of Educational Research at York St John University and Visiting Professor at Oslo and Akershus University College Beijing Normal University and Ningxia Teachers University She is also the author of key texts Action Research Principles and Practice You and Your Action Research Project and Writing Up
