Psychology Curricula Joseph A. Mayo,2010 Although courses differ widely across undergraduate institutions dedicated
 psychology educators at all academic levels share an interest in uncovering optimal teaching practices To aid the process of
 pedagogical discovery this book addresses three contemporary concerns of psychology teachers and links these ideas to the
 first five learning goals and outcomes discussed in the American Psychological Association s APA s 2007 Guidelines for the
 Undergraduate Psychology Major a knowledge base of psychology b research methods in psychology c critical thinking skills
 in psychology d application of psychology and e values in psychology Within the broad framework of a constructivist
 educational perspective that promotes active and enduring learning this book affords undergraduate psychology teachers
 opportunities to a align course content with APA endorsed student learning outcomes b integrate class tested instructional
 strategies with authentic or real world learning and assessment tools designed to foster higher order thinking and c assess
 students understandings of course content along a developmental continuum that gauges academic progress from the
 introductory psychology course through receipt of the baccalaureate degree This book is not meant to be prescriptive Rather
 it is intended as an advisory instructional resource to provide a general framework from which to approach undergraduate
 psychology curricula one that permits maximum flexibility in relation to faculty student and institutional differences
