Students enrolled in the courses for which these questions were written include nursing, midwifery, paramedic, physiotherapy, occupational therapy, nutrition, and dietetics, health sciences, exercise science, and students taking an anatomy and physiology course as an elective.

El-Hi Textbooks and Serials in Print, 2003 Islands in Geography, Law, and Literature Chiara Battisti, Sidia Fiorato, Matteo Nicolini, Thomas Perrin, 2022-04-04. This collection explores the heterogeneous places we have traditionally been taught to term islands. It stages a conversation on the very idea of island-ness, thus contributing to a new field of research at the crossroads of law, geography, literature, urban planning, politics, arts, and cultural studies. The contributions to this volume discuss the notion of island-ness as a device triggering the imagination, triggering narratives and representations in different creative fields; they explore the interactions between legal, socio-political, and fictional approaches to remoteness and the state of insularity; policy responses to both remoteness and boundaries on different scales; and the insular legal framing of geographical remoteness. The product of a cross-disciplinary exchange on islands, this edited volume will be of great interest to those working in the fields of Island Studies as well as literary studies, scholars, geographers, and legal scholars. □□□□□□□□, 1993 Academic Reading Kathleen T. McWhorter, 1986. *Guide to College Reading* focuses on the key areas of reading comprehension, vocabulary improvement, and textbook reading. Critical thinking and metacognition are hallmarks of the McWhorter series. Critical thinking is incorporated throughout the book in instruction exercises and readings. Metacognitive activities include teaching readers how to evaluate their own learning styles to increase their ability to read college-level material successfully. Exercises that ask readers to respond by writing sentences and paragraphs after reading help make the critical connection between these two activities. Numerous diagrams and drawings help readers visualize how reading material can be organized. High-interest photographs and artwork appeal to the visual learner. Chapter-ending readings give immediate practice for chapter skills and aid in transferring these skills to actual reading situations. Learning Style Tips reinforce material introduced earlier throughout the book and teach readers how to apply knowledge of their individual learning styles to learn new skills.
