**Computer Algebra** Wolfram Koepf, 2021-07-11 This textbook

offers an algorithmic introduction to the field of computer algebra A leading expert in the field the author guides readers through numerous hands on tutorials designed to build practical skills and algorithmic thinking This implementation oriented approach equips readers with versatile tools that can be used to enhance studies in mathematical theory applications or teaching Presented using Mathematica code the book is fully supported by downloadable sessions in Mathematica Maple and Maxima Opening with an introduction to computer algebra systems and the basics of programming mathematical algorithms the book goes on to explore integer arithmetic A chapter on modular arithmetic completes the number theoretic foundations which are then applied to coding theory and cryptography From here the focus shifts to polynomial arithmetic and algebraic numbers with modern algorithms allowing the efficient factorization of polynomials The final chapters offer extensions into more advanced topics simplification and normal forms power series summation formulas and integration Computer Algebra is an indispensable resource for mathematics and computer science students new to the field Numerous examples illustrate algorithms and their implementation throughout with online support materials to encourage hands on exploration

Prerequisites are minimal with only a knowledge of calculus and linear algebra assumed In addition to classroom use the elementary approach and detailed index make this book an ideal reference for algorithms in computer algebra Exercises

in Algebra Alexandra I. Kostrikin, 1996-02-09 This book is a collection of exercises for courses in higher algebra linear algebra and geometry It is helpful for postgraduate students in checking the solutions and answers to the exercises

Exercises in Algebra Alexandra I. Kostrikin, 2019-01-22 This text contains more than 2000 exercises in algebra These exercises are currently used in teaching a fundamental course in algebra in the Department of Mechanics and Mathematics at Moscow State University The text is divided into three parts which correspond to three semesters of study Each section contains not only standard exercises but also more difficult exercises at the end of some sections these more challenging exercises being marked with asterisks At the end of the book results of calculations a list of notations and basic definitions
