Corporate Reporting Institute of Chartered Accountants in England and Wales, 2016 **Corporate Reporting** Institute of Chartered Accountants in England and Wales, 2013 **The Institute of Chartered Accountants in England and Wales** Institute of Chartered Accountants in England and Wales, 2017 **Corporate Reporting** Institute of Chartered Accountants in England and Wales, 2013 **Corporate Financial Reporting** Andrew Higson, 2003-02-28 The Internet bubble has collapsed and the largest bankruptcy in US history Enron has made the call for greater transparency in financial reporting more important than ever Andrew Higson draws attention to what is a true and fair view in reporting and critically examines accounting theory and modern practice **Business Models and Corporate Reporting** Lorenzo Simoni, 2021-09-19 This book discusses the role of business models in corporate reporting It illustrates the evolution of non financial reporting the importance of business model reporting and the main conceptualisations of business models It also offers a methodological contribution to the assessment of business model reporting Finally it discusses the main implication of business model reporting for different categories of subjects and some challenges related to this kind of disclosure Readers will understand the role of business models in the non financial reporting landscape They will also gain an understanding of how business models can help users of the annual report contextualise other non financial items disclosed However effective business model reporting implies paying attention to certain features that define its quality This theme is discussed in the empirical part of the book and in the section devoted to implications for preparers users and regulators As large companies in the EU and the UK have to disclose the business model in the annual report this book will be of interest to preparers and users of financial statements regulators involved in the ongoing non financial regulatory process and professional bodies It will also be of interest to academics interested in the investigation of non financial reporting **A Social Critique of Corporate Reporting** David Crowther, 2016-03-16 In the critically acclaimed first edition of A Social Critique of Corporate Reporting David Crowther examined the perceived dialectic around traditional and environmental reporting to show it to be a false dialectic Corporate reporting continues to change rapidly to incorporate more detail and especially environmental and social information At the same time the mechanism for reporting has changed and the internet now enables more information to be provided to an ever wider range of stakeholders and interest groups The perceived conflict between financial performance representing the needs of investors and other dimensions of performance representing the needs of other stakeholders still however continues to exist In this updated edition this perceived conflict is re examined along with the wider purposes of corporate reporting These are examined in the context of web based reporting and a greater concern for all stakeholders The conclusion is that although recent developments have produced changes the essential conflict is still professed to exist but remains a largely imaginary one The analysis in this book makes use of both statistics and semiotics and in so doing develops a semiology of corporate reporting that offers an alternative to other

research that is largely based on econometrics Researchers higher level students and others with an interest in or responsibility for corporate reporting corporate social responsibility accounting research or semiotics will find this book essential reading
