

Determining the Correct Writing Sequence (CWS)

- A correct Writing Sequence (CWS) is a pair of adjacent, correctly spelled words that are acceptable within the context of the written phrase. CWS takes into account punctuation, syntax, semantics, spelling, and capitalization. When scoring CWS, a caret (^) is used to mark each correct word sequence. A space is implied at the beginning of the sentence.
- Place a caret (^) between words that are (1) mechanically (spelled correctly, appropriate capitalization, (2) semantically, and (3) syntactically correct; calculate the sum of the number of carets = CWS
- There are many rules for CWS! Please refer to page 3 and 4 in the How to Conduct a Writing CBM (yellow) handout

A complete guide is included for digital administration and scoring using Q-interactive automated scoring using Q-global and hand scoring. *Essentials of KTEA 3 and WIAT III Assessment* makes score interpretation easier by explaining what each score measures and the implications of a high or low score. Learn how to increase the diagnostic utility of the KTEA 3 and WIAT III by taking full advantage of their capabilities for error analysis, qualitative observations, and progress monitoring, and by pairing the results with measures of cognitive ability such as the WISC-V and KABC-II. Case studies illustrate the use of these tests to respond to various referral concerns. Annotations within each case report provide a window into the mind of the examiner throughout the assessment process. This book provides a depth and breadth of understanding that is appropriate for all assessment professionals, regardless of their level of training or experience. Extensive illustrations, call-out boxes, and Test Yourself questions help students and clinicians quickly absorb the information they need. *Essentials of KTEA 3 and WIAT III*
