This SSPC/NACE International joint standard represents a consensus of those individual members who have reviewed this document, its scope, and provisions. Its acceptance does not in any respect preclude anyone, whether he or she has adopted the standard or not, from manufacturing, marketing, purchasing, or using products, processes, or procedures not in conformance with this standard practice. Nothing contained in this SSPC/NACE standard is to be construed as granting any right, by implication or otherwise, to manufacture, sell, or use in connection with any method, apparatus, or product covered by letters patent, or as indemnifying or protecting anyone against liability for infringement of letters patent. This standard represents minimum requirements and should in no way be interpreted as a restriction on the use of better procedures or materials not discussed herein. Neither is this standard intended to apply in all cases relating to the subject. Unpredictable circumstances may negate the usefulness of this standard in specific instances. SSPC and NACE assume no responsibility for the interpretation or use of this standard by other parties, and accept responsibility for only those official SSPC or NACE interpretations issued by SSPC or NACE in accordance with their governing procedures and policies, which preclude the issuance of interpretations by individual volunteers.

Users of this SSPC/NACE standard are responsible for reviewing appropriate health, safety, and regulatory documents and for determining their applicability in relation to this standard prior to its use. This SSPC/NACE standard may not necessarily address all potential health and safety problems or environmental hazards associated with the use of materials, equipment, and/or operations detailed or referred to within this standard. Users of this SSPC/NACE standard also are responsible for establishing appropriate health, safety, and environmental protection practices, in consultation with appropriate regulatory authorities if necessary, to achieve compliance with any existing applicable regulatory requirements prior to the use of this standard.

CAUTIONARY NOTICE: This SSPC/NACE joint standard is subject to periodic review, and may be revised or withdrawn at any time in accordance with SSPC/NACE technical committee procedures. SSPC and NACE require that action be taken to reaffirm, revise, or withdraw this standard no later than five years from the date of initial publication and subsequently from the date of each reaffirmation or revision. The user is cautioned to obtain the latest edition. ABSTRACT

This standard on corrosion prevention and control (CPC) planning is intended to support future CPC improvements to national acquisition and sustainment of products and facilities at an acceptable cost. It provides a standardized framework for a supplier's plan to control corrosion of supplied products and facilities. The standard is intended for use by public and private facility owners/acquisition agencies that require their suppliers to provide corrosion prevention and control procedures as a deliverable provided with the purchased products and facilities. The standard includes:

- *Attributes of the supplied product or facility that require planning for CPC;*
- *Considerations for material selection and design of a product or facility to minimize corrosion;*
- *Items or topics that should be addressed in a CPC plan;*
- *Items or topics that should be addressed in CPC planning which affect CPC in design, fabrication and construction, operation and use, and maintenance and sustainability;*
- *Characteristics of the key elements of CPC planning;*
- *New in this revision—Approaches to CPC assessment.*
