Knowledge PMBOK industry leaders address Project risk management Project portfolio management The Project Office Project management multinational cultures Integrated project teams and virtual project teams *Formative Design in Learning* Brad Hokanson,Matthew Schmidt,Marisa E. Exter,Andrew A. Tawfik,Yvonne Earnshaw,2023-11-27 Learning design is an ill structured process that must account for multiple stakeholders contextual constraints and other instructional needs Whereas many theories outline learning theories less is known about the formative design process and how it impacts the design and development of learning technologies This is critical because a formative view considers the issues that educators encounter and how to overcome them during the learning design process This edited volume provides a multi faceted look at theories studies and design cases that employ formative design in learning across multiple domains Topics include processes oriented around design thinking design based research and others Additional chapters provide contextual considerations such as describing how formative design was used to design learning solutions for STEM learning and food banks as well as overcoming challenges in emergency remote teaching In doing so the book provides an interdisciplinary view that explores how scholars and practitioners engage in formative practices that support a wide array of learners and contexts *Applied Project Management* Harold Kerzner,2000 Putting project management to work best practices for achieving excellence Harold Kerzner s landmark Project Management has long been the reference of choice for outstanding coverage of the basic principles and concepts of project management Now this book takes the next step converting theory into practice to address the application and implementation of project management in the real world Informed by Harold Kerzner s extensive original research and accessible approach it is essential reading for today s and tomorrow s professionals involved in project management Features include Commentaries from managers at leading corporations who share their decision making processes including the successes and mistakes for project management implementation Twenty five case studies highlighting crucial project management issues problems and solutions Helpful end of chapter learning aids including questions and puzzles **Resources in Education** ,1980 **Innovative Saline Agriculture** J.C. Dagar,P.C. Sharma,D.K. Sharma,A.K. Singh,2016-08-10 The land degradation due to salinity and waterlogging is a global phenomenon afflicting about one billion hectares within the sovereign borders of at least 75 countries Besides staring at the food security it has far reaching and unacceptable socio economic consequences since a large proportion of this land is inhabited by smallholder farmers The anthropogenic environmental changes and the climate change are further adding to the problem of salinity and waterlogging The phenomenon of sea level rise will bring more areas under waterlogged salinity due to inundation by sea water Thus dealing with the salinity in reality is becoming a highly onerous task owing to its complex nature uncertainty and differential temporal and spatial impacts Nevertheless with the need to provide more food feed fuel fodder and fiber to the expanding population and non availability of new productive land there is a need for productivity enhancement of these lands In fact the salt affected and waterlogged lands cannot be neglected since huge investments have been made throughout the

world in the development of irrigation and drainage infrastructure The social economic and environmental costs being high for the on and off farm reclamation techniques saline agriculture including agroforestry inculcated with modern innovative techniques is now emerging as a potential tool not only for arresting salinity and waterlogging but for other environmental services like mitigate climate change sequester carbon and biodiversity restoration This publication attempts to address a wide range of issues principles and practices related to the salinity involved in rehabilitation of waterlogged saline soils and judicious use of saline waters including sea water Many of the site specific case studies typical to the saline environment including coastal ecologies sustaining productivity rendering environmental services conserving biodiversity and mitigating climate change have been described in detail Written by leading researchers and experts of their own fields the book is a must not only for salinity experts but also for policy makers environmentalists students and educationists alike More importantly it contributes to reversing the salinity trends and teaches to sustain with salinity ensuring the livelihood of resource poor farming families leaving in harsh ecologies including coastal areas which are more vulnerable to climate change

Educational Facilities and Risk Management Organisation for Economic Co-operation and Development, 2004-02-16 The danger posed by earthquakes and other natural disasters to schools is of particular concern given the concentration of young people attending them and schools broader role in communities not the least of which is their common use as places of refuge for the populace after a disaster New schools including those meant to replace earlier damaged buildings can be designed to be structurally resistant taking into account local conditions and the degree of earthquake or other natural risks while techniques exist for retrofitting older weaker structures
