Matthew Gumke,2019-09-19 I ve made this book so that you don t get scammed by taking out a student loan Why would you pay 100 000 to listen for 4 years to teachers that have never made more than 50 000 per year You can t even live on 50 000 per year anymore Not if you want a half decent life And people are PAYING to listen to these people Societal disaster America is suffering from a debt crisis cased by insane levels of student loans Colleges are scamming people left right and centre What s worse society doesn t care Wages have only increased 67% since 1970 yet student loans are exploding to

record levels year after year This along with soaring cost of living has made it nearly impossible for ordinary millennials who go to college to become financially independent in the richest country on earth If you go to college and study most degrees and use the information you learned in your degree in the workforce the American dream is dead As an entrepreneur who s looking to hire millennials I can tell you that most graduates don t have a clue how to help my businesses Not only that they re in a constant state of fear and panic Even if I pay them a great wage they can t afford to make ends meet due to their obscene student loans often at high interest rates They re trying to get married buy a house and have kids yet their crippling loans makes it impossible Because the elites who own the education system have rigged the education system with intense brainwashing for the last 100 years colleges no longer need to provide value They no longer need to help their students make money They no longer need to help anyone in any way shape or form I m the founder of Gumke University Gumke University is known for changing the future of education I didn t do well in traditional education I wanted to become a multi millionaire and all the teachers I spoke to about it were struggling financially I knew that he needed to find better teachers outside of traditional education I wanted to get taught by the people at the top not their employees In my pursuit to find the owner of an education company I found Ekim Kaya the owner of Kaya Online the world s largest Amazon training company I watched Ekim take his business to over 100 000 students and millions of dollars Many students became millionaires Thousands of students became financially free Not everyone was successful but a much higher percentage than traditional education All for less than 1% of the cost I knew that this was the impact I wanted to create I started to learn high income skills and teach for Kaya Online having my work translated into multiple languages for Ekim Kaya s 100 000 students Within just a few years of learning from Ekim Kaya I was financially independent Gumke University was established to help the students get rich on their own terms without needing degrees I believe that my students can improve their health happiness and quality of relationships by becoming financially free The younger the students can achieve this the better Unlike many other universities Gumke University adapts to changes in the marketplace and Gumke University focuses on tangible results not theories Gumke University succeeds when students make money not when they correctly answer questions about the curriculum The reality is that some students win even if they don t know everything in the curriculum and other students lose even if they know the entire curriculum The difference comes down to the mindset of the individual student At Gumke University all training programs are set up in a step by step system that helps the students succeed not just the owners of the university Of course I want to succeed as well but I measure my success by the success of my students Learn how to avoid student loan scams and becoming another statistic Student Loans Maureen Woodhall,1982 *Examining the Similarities and Differences Between African American Students who Incur Increased Loan Indebtedness Compared to Those who Choose to Borrow Less* Barbara Matthews Tharpe,2017 Education will always be a driving force to better individuals marketing ability In this society you must be willing to sacrifice and make decisions on whether or not to obtain a college

degree For many students to obtain a college degree requires financing options which in terms means loan debt Current research suggested that over 80% of students rely on some type of financial aid assistance to help with financing postsecondary educational opportunities The primary focus of this study was to explore if there were any relationships between African American male and female students borrowing habits Results of the study indicate socioeconomic or demographic factors did not play a role in why some students borrow more than others **Student Loans for Higher Education** Charlene Wear Simmons, 2008 Describes federally subsidized and guaranteed loans examines private student loan industry and discusses issues relating to student debt and financial counseling Also covers loan practices that have led to allegations and findings of fraud and abuse as well as recent federal and state legislative and administrative responses
