Lincoln Center Inside Out Diller Scofidio + Renfro, Elizabeth Diller, Ricardo Scofidio, 2012 The redesign of Lincoln Center is one of the most challenging and innovative civic projects in recent urban history Over the past eight years Diller Scofidio Renfro in close collaboration with Lincoln Center's leadership has transformed the fifty year old Modernist citadel into a porous and democratic campus This visually rich document is the first comprehensive book to feature the extensive redevelopment in its entirety Through a combination of photographs drawings renderings archival records and texts the book describes the innovative strategies that have dissolved the public private divide and effectively turned the campus inside out extending the spectacle of the performance halls into the Center's mute public spaces and surrounding streets Conceived as a cross between an art book a scholarly record and an architectural diary this publication demonstrates how the recent redesign both respects and challenges preconceived notions about Lincoln Center and its ongoing role as a cultural hub in an ever changing city This unorthodox publication is comprised entirely of gatefolds a series of inside out centerfolds where the exterior pages of each spread feature glossy large format full bleed photographs highlighting different parts of the campus Inside the gatefolds tucked behind these lush photos is a series of back stories that reveal the surprising evolution and unexpected afterlife of the same spaces

*They Told Me Not to Take that Job* Reynold Levy, 2015-05-12 When Reynold Levy became the new president of Lincoln Center in 2002 New York Magazine described the situation he walked in to as a community in deep

distress riven by conflict Ideas for the redevelopment of Lincoln Center's artistic facilities and public spaces required spending more than 1.2 billion but there was no clear pathway for how to raise that kind of unprecedented sum The individual resident organizations that were the key constituents of Lincoln Center the Metropolitan Opera the New York City Opera the New York Philharmonic the Juilliard School and eight others could not agree on a common capital plan or fundraising course of action Instead intramural rivalries and disputes filled the vacuum Besides some of those organizations had daunting problems of their own Levy tells the inside story of the demise of the New York City Opera the Metropolitan Opera's need to use as collateral its iconic Chagall tapestries in the face of mounting operating losses and the New York Philharmonic's dalliance with Carnegie Hall Yet despite these and other challenges Levy and the extraordinary civic leaders at his side were able to shape a consensus for the physical modernization of the sixteen acre campus and raise the money necessary to maintain Lincoln Center as the country's most vibrant performing arts destination By the time he left Lincoln Center had prepared itself fully for the next generation of artists and audiences *They Told Me Not to Take That Job* is more than a memoir of life at the heart of one of the world's most prominent cultural institutions It is also a case study of leadership and management in action How Levy and his colleagues triumphantly steered Lincoln Center through perhaps the most tumultuous decade of its history to a startling transformation is fully captured in his riveting account *Pop Culture Places* Gladys L. Knight, 2014-08-11 This three volume reference set explores the history relevance and significance of pop culture locations in the United States places that have captured the imagination of the American people and reflect the diversity of the nation *Pop Culture Places: An Encyclopedia of Places in American Popular Culture* serves as a resource for high school and college students as well as adult readers that contains more than 350 entries on a broad assortment of popular places in America Covering places from Ellis Island to Fisherman's Wharf the entries reflect the tremendous variety of sites historical and modern emphasizing the immense diversity and historical development of our nation Readers will gain an appreciation of the historical social and cultural impact of each location and better understand how America has come to be a nation and evolved culturally through the lens of popular places Approximately 200 sidebars serve to highlight interesting facts while images throughout the book depict the places described in the text Each entry supplies a brief bibliography that directs students to print and electronic sources of additional information *Vanity Fair*, 2013 **The Refurbishment of New York's Lincoln Center** Charles Renfro, 2011 Charles Renfro joined Diller and Scofidio founded by Elizabeth Diller and Ricardo Scofidio in 1997 Since Renfro became a partner in 2004 the firm has been known as Diller Scofidio Renfro The practice first gained attention for its site specific landscape and multi media work most notably the Blur Building a pavilion at the 2002 Swiss Expo It completed its first major building the Institute of Contemporary Arts in Boston in 2006 The renovation of the High Line a formerly disused elevated railway line running along the west side of Manhattan has become a much loved addition to the city since it opened in summer 2009 The second phase of the High Line opened in
