Dimension Guardian Kendra Amidon, 2013-12-23 The Dimension Protection Council had been around for nearly four thousand years but it had never seen a crisis quite of this magnitude The responsibility of the Dimension Protection council was to maintain the delicate balancing act of the five worlds that coexisted next to one another While four of the realms were able to get along with little friction between them the Demon Realm caused fear in humans even during the most peaceful of times Now was not one of those times of peace and the fear in the human inhabited realms was becoming suffocating When the council finally discovered the break in the seal that held the dimensions separate it was too late to repair the damage and drastic measures had to be taken and the Guardians the mercenaries of the council had to be called to action Despite a horrific massacre that occurred forty years previous the best course of action decided was to reinstate the Guardian Tournament which pitted the elite fighting force of the council against one another in brutal battle for sport Using the tournament as a pretense to find the Guardians responsible for breaking the protective seal the Elders of Council grouped the five strongest and most trustworthy Guardians in a team to infiltrate and flush out the criminals from inside the tournament Dalton and his four teammates Eclipse Mitoki Hanyi and Keito tasked with the task of catching the group responsible soon learn that they are fighting something beyond their comprehension Centuries old secrets and hidden apparitions bring the strongest Guardians to question their orders their mission and their loyalty as they face an enemy more powerful than they could have ever believed

Redeeming Words and the Promise of Happiness David Kleinberg-Levin, 2012-08-31 This book boldly crosses traditional academic boundaries offering an original philosophically informed argument about the nature of language reading and interpreting the poetry of Wallace Stevens and the novels of Vladimir Nabokov. *Redeeming Words and the Promise of Happiness* is a work both in literary criticism and in philosophy. The approach is strongly influenced by Walter Benjamin's philosophy of language and Theodor Adorno's aesthetic theory but the other philosophers notably Plato, Kant, Hegel, Emerson, Nietzsche, Heidegger, and Wittgenstein figure significantly in the reading and interpretation. Kleinberg-Levin argues that despite its damaged, corrupted condition, language is in its very existence the bearer of a utopian or messianic promise of happiness. Moreover, he argues by reconciling sensuous sense and intelligible sense, showing the sheer power of words to create fictional worlds and deconstruct what they have just created, and redeeming the revelatory power of words, the power to turn the familiar into something astonishing, strange, or perplexing, the two writers in this study sustain our hope for a world of reconciled antagonisms and contradictions, evoking in the way they freely play with the sounds and meanings of words, some intimations of a new world, but our world here, this very world, not some heavenly world in which the promise of happiness might be redeemed. Reflecting on the poetry of Stevens, Kleinberg-Levin argues that the poet defies the correspondence theory of truth so that words may be faithful to truth as transformative and revelatory. He also argues that in the pleasure we get from the sensuous play of words, there is an anticipation of the promise of happiness that challenges the theological doctrine of an otherworldly happiness. And in reading Nabokov, Kleinberg-Levin shows how that writer inherits Mallarmé's conception of literature, causing with his word play the sudden reduction of the fictional world he has just created to its necessary conditions of materiality. The novel is revealed as a work of fiction; we see its conditions of possibility created and destroyed before our very eyes. But the pleasure in seeing words doing this, and the pleasure in their sensuous materiality, are intimations of the promise of happiness that language bears. Using a Kantian definition of modernism according to which a work is modernist if it reveals and questions inherited assumptions about its necessary conditions of possibility, these studies show how and why both Stevens and Nabokov are exemplars of literary modernism.
