Diners Guide To Safe Fish Species:

Sustainable Culinary Systems Colin Michael Hall, Stefan Gössling, 2013 This is the first volume to examine the concept of sustainable culinary systems particularly with specific reference to tourism and hospitality Divided into two parts firstly the notion of the local is explored reflecting the increased interest in the championing of local food production and consumption Secondly treatment of sustainability in food and food tourism and hospitality in settings that reach beyond the local in a business and socio economic sense is reviewed The book therefore reflects much of the contemporary public interest in the conscious or ethical consumption and production food as well as revealing the inherent tensions between local and broader goals in both defining and achieving sustainable culinary systems and the environmental social and economic implications of food production and consumption *Catalog.
