FAQ Warning

The radio receiver will stop if it is the FM band. Receiver is subject to the following two conditions: 1) The device may not receive nearby radio waves, and 2) the device may accept any interference received, including interference that may cause audible distortion.

Caution: Change a radio station or program according to the push repeatedly to complete scan and the device actually is unable to reception.

NOTE: The speaker has been tested and found to comply with the limits for a Class B digital device pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to other communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to a different power outlet or a different branch circuit.
- Consult the dealer or a qualified technician for help.

For additional information, contact your local government.

The above are not a complete list of all other factors.
