national approaches to the critical questions confronting value educators are extraordinarily diverse This volume begins by
examining the context of the revival of values education and asks why it is gaining new impact in national and local
educational systems Chapter 2 helps to locate values education in its historical time and place The case studies presented in
Chapters 3 9 provide examples of the major variations in national practice in Asia and the West and the concluding chapter
identifies many of the options open to educational leaders The aim of the book is to provide both practitioners and scholars
with insights into the latest developments so that they can approach their work with broader vision and compassion
