Child of Atlantis Perry Covington,2014-11-28 Maximus Hunter has had an eventful summer He now knows that the mythical Empire of Atlantis is real and that the descendants of Atlantis are alive and well in the modern day world That knowledge has come at a price Ripped from his home and friends he has had to endure perilous obstacles face blood thirsty monsters and worst of all endure the loss of his parents at the hands of the Fallen a group bent on destroying the Earthborn With a renewed sense of purpose Max chooses to fight the Fallen avenge his family and help save the people of the world Now the Fallen seek an ancient weapon that has the potential to achieve the apocalypse that they so desperately wish for With his friends old and new Max must find the weapon first and destroy it before the Fallen claim it as their own This quest will test his will courage and loyalty With the fate of the world at stake Max must embrace his responsibilities as the Key or all will be lost In a race for the survival of planet Earth time is of the essence Tick tock **Forthcoming Books** Rose Army,2003-12 **Seers of the Ages: embracing spiritualism past and present ... Terlizze,2009-01-10 Trajectory of the Twenty first Century explores what many prophets of the twentieth century such as Oswald Spengler Paul Tillich Aldous Huxley Jacques Ellul and others have predicted would transpire in the current century Their vision included an out of control technological system and a return to religious sentiment that will ultimately undermine the system to which it is reacting This book aims to accurately present their positions and draw certain logical conclusions from them that pertain to the course of history in our time The book s theme argues that modernity is a secularized version of millennial Christianity which reaches its fullest development in the twenty first century and will regress into what Russian philosopher Nicholas Berdyaev called the new Middle Ages or a new religious period This will mean the twilight of modern technological society as its values of rationalism give way to a post-rationalist society Ironically decline will come through further technological advance Omnicide threatens through religious world war driven by transcendent values and modern weaponry Jihadist thinking and posthumanist technology both establish the

omnicidal mentality New technologies such as genetic engineering and artificial intelligence created under millennial inspiration to reach for immortality could potentially bring an end to the human species either through a slow steady obsolescence or through environmental catastrophe The titanic forces of technological progress and regress are on a direct collision course in the twenty first century
