Child And Youth Health Report Card:

Child and Adolescent Health and Health Care Quality National Research Council, Institute of Medicine, Board on Health Care Services, Board on Children, Youth, and Families, Committee on Pediatric Health and Health Care Quality Measures, 2011-09-15 Increasing public investments in health care services for low income and special needs children and adolescents in the United States have raised questions about whether these efforts improve their health outcomes Yet it is difficult to assess the general health status and health care quality for younger populations especially those at risk of poor health outcomes because the United States has no national information system that can provide timely comprehensive and reliable indicators in these areas for children and adolescents Without such a system in place it is difficult to know whether and how selected health care initiatives and programs contribute to children s health status Child and Adolescent Health and Health Care Quality identifies key advances in the development of pediatric health and health care quality measures examines the capacity of existing federal data sets to support these measures and considers related research activities focused on the development of new measures to address current gaps This book posits the need for a comprehensive strategy to make better use of existing data to integrate different data sources and to develop new data sources and collection methods for unique populations Child and Adolescent Health and Health Care Quality looks closely at three areas the nature scope and quality of existing data sources gaps in measurement areas and methodological areas that deserve attention Child and Adolescent Health and Health Care Quality makes recommendations for improving and strengthening the timeliness quality public transparency and accessibility of information on child health and health care quality This book will be a vital resource for health officials at the local state and national levels as well as private and public health care organizations and researchers
