

## **"A Child Called It" by Dave Pelzer**

### **11<sup>th</sup> - 12<sup>th</sup> grade**

To ensure that you are able to have meaningful conversations with your students about this book, I do not provide answers to the questions. I encourage you to take the time to read the book, or at the very least, the cliff notes, so that you discover the answers for yourselves.

This book was used in my Banned Books class for seniors, but it can also be used in a high school psychology class. This lesson plan encourages critical thinking about a difficult subject while also addressing the book's banned status.

You will need to develop your own grading rubric for this unit. I only graded writing assignments and discussion participation.

#### **Day 1**

- Introduce the book and its themes of child abuse, resilience, and survival.
- Discuss the reasons for the book's banning (perceived content: abuse) and the importance of addressing difficult topics in literature. (Helps students develop a sense of empathy, facilitates conversation on difficult subjects, can be therapeutic for children living the same experience, etc.)
- For discussion:
  - What is the difference between an autobiography and a memoir?
  - Foreshadowing – review with students what foreshadowing is.
  - Discuss the reading schedule and provide trigger warnings about the graphic content.
  - Any guesses why the book has been titled "A Child Called It", emphasis on the "It". (The odds are that they will have no idea, but they will have fun coming up with ideas. Students will explore this again at the end of the book.)
- Reading: pages 3-26

#### **Day 2**

- For discussion:
  - Introduce Erik Erikson's stages of Psychosocial Development using the following video and the chart in Appendix A: <https://www.youtube.com/watch?v=6d02m000000>
  - Give each student a copy of the chart, and ask them to identify what stage of development they are currently in. How did they come to that conclusion?
- Read: pages 29-43

Daily Lesson Plans Walter Lowrie Hervey, 1915      **English for American Indians**, 1970      **Play and Learning in the Early Years** Pat Broadhead, Justine Howard, Elizabeth Wood, 2010-03-15

Providing high quality play experiences is an essential part of good early years education but this can pose a challenge for practitioners who face pressure from a more didactic primary curriculum and from parents worried that their children will fail to acquire essential skills and knowledge. By helping the reader to develop their understanding of the complex relationships between play and learning this book examines current theoretical perspectives on play alongside examples of recent and innovative play research from a range of disciplinary and methodological perspectives. With contributions from leading play scholars it brings together theory, research, policy and practice in relation to play and learning in early years settings. The emphasis is on the relationship between play and learning and play and pedagogy and the need to understand these dimensions more substantially in order to teach with confidence. Included are chapters on the influence of play on thinking, problem solving and creativity, cooperative play and learning, play risk and outdoor learning, learning to play in cultural context. There are chapter objectives, reflective points, reflective tasks and suggestions for further reading throughout to facilitate critical thinking and encourage independent study. Suitable for early years practitioners, early childhood students at undergraduate and postgraduate levels and all those who work with and care for young children, this is an exciting and thought provoking book.

*Teaching Children's Literature* Diane Duncan, 2013-01-11

Drawing on a series of recently conducted classroom workshops and live interviews with the authors, this inspiring book examines five popular children's authors: Philip Pullman, J.K. Rowling, Michael Morpurgo, Anthony Browne, Jacqueline Wilson and the genre of comic books. Four genres are explored in detail: the picture book, written narrative, film narrative and comic books. *Teaching Children's Literature* provides detailed literary knowledge about the chosen authors and genres alongside clear structured guidelines and creative ideas to help teachers, student teachers and classroom assistants make some immensely popular children's books come alive in the classroom. This accessible and inspiring text for teachers, parents, student teachers and students of children's literature includes a variety of discussion, drama, writing and drawing activities with ideas for Social and Emotional Aspects of Learning which can be used to plan a unit of work or series of interrelated lessons for pupils aged between seven and fourteen years. Provides detailed literary knowledge about the authors, their works, language, plot and characterisation including exclusive transcripts of interviews with three contemporary children's book authors. Shows teachers how pupils can be encouraged to become more critical and knowledgeable about screen, picture and comic narratives as well as written narratives. Demonstrates how reading stories can help connect pupils and teachers to a broader pedagogy in ways which promote deeper thinking, learning and engagement. This lively, informative and practical book will enable teachers, students and classroom assistants to plan inspiring and enjoyable lessons which will encourage them to teach children's literature in an entirely different and inventive way.
