Blackness at the Intersection Kehinde Andrews, Kimberlé Crenshaw, Annabel Wilson, 2024-02-08 A ground breaking collection applying Crenshaw's concept of intersectionality to the black diasporic experience in Britain In the 1980s Professor Kimberlé Crenshaw first coined the term intersectionality Since then the concept has spread across national and disciplinary boundaries and has had a transformative impact on the way in which we understand identity and the experience of discrimination But outside the US the application of intersectional theory has largely been disconnected from any analysis of Blackness despite intersectionality's origins in critical race theory CRT Curated by Crenshaw Andrews and Wilson as well as several of the leading scholars of CRT this collection bridges that gap and is the first to apply both these concepts to contexts outside the US Focusing on Blackness in Britain the contributors examine how scholars and activists are employing intersectionality to foreground Black British experiences Its essays encompass key issues such as gender and Black womanhood issues of representation within contemporary British culture and the position of Black Britons within institutions such as the family education and health The book also looks to the role intersectionality can play in shaping future political activism and in forging links beyond Blackness to other social movements **Out of the Ordinary** Ian Rivers, Richard Ward, 2012-03-15 Out of the Ordinary Representations of LGBT Lives is a book that introduces readers to the politics and practices of representation as they apply to the lives and perspectives of lesbian gay bisexual and transgender groups and individuals The chapters collected in this volume issue a challenge to the ordinariness of heterosexuality and an associated invisibility of those who are situated outside of or beyond the ordinary The book demonstrates that social and cultural representations serve as both a site of fruitful reinvention and a battleground for the emergence and visibility of non normative voices and interests It will support readers in developing an in depth understanding of the politics of sexuality and gender identity alongside a broader appreciation of the diverse terrain and conditions under which a multiplicity of identities are negotiated contested and regulated in everyday life **The History of Sexuality Sourcebook** Mathew Kuefler, 2007-03

This volume is a keeper Courses based on Kuefler will illuminate their audiences and probably win teaching awards too Paul R Hyams Cornell University Voices from the Edge Michelle Panchuk, Michael Rea, 2020-05-27 Over the past several decades scholars working in biblical theological and religious studies have increasingly attended to the substantive ways that our experiences and understanding of God and God's relation to the world are structured by our experiences and concepts of race gender disability and sexuality These personal and social identities and their intersections serve as a hermeneutical lens for our interpretations of God self the other and our religious texts and traditions However they have not received nearly the same level of attention from analytic theologians and philosophers of religion and so a wide range of important issues remain ripe for analytic treatment The papers in this volume address the various ways in which the aforementioned social identities intersect with shape and might be shaped by the questions with which analytic theology and philosophy of religion have typically been concerned as well as what new questions they suggest to the discipline We focus on three central areas of analytic theology methodological principles the intersection of social identities with religious epistemology and the connections among eschatology ante mortem suffering and ante mortem social perceptions of bodies **In the Life** Joseph Beam, 1986 In the Life an expression which means being gay is also the title of this collection of writings in which more than 25 black authors explore what it means to be doubly different both black and gay in modern America These stories verses works of art and theater pieces voice the concerns and aspirations of an often silent minority They can be poignant erotic resolute or angry but always reflect the affirming power of coming together to build a strong black gay community Editor Joseph Beam began collecting this material in 1984 after years of frustration with gay literature that had no message for and little mention of black gay men The bottom line he wrote is this We are Black men who are proudly gay What we offer is our lives our love our visions We are coming home with our heads held up high **BOOK JACKET** **Creative Camera** , 1995
