Chiasms Professor Fred Evans, Fred Evans, Leonard Lawlor, Professor Leonard Lawlor, 2000-09-14 Leading scholars explore the later thought of Merleau Ponty and its central role in the modernism postmodernism debate *James Joyce and the Phenomenology of Film* Cleo Hanaway-Oakley, 2017-06-23 James Joyce and the Phenomenology of Film reappraises the lines of influence said to exist between Joyce's writing and early cinema and provides an alternative to previous psychoanalytic readings of Joyce and film Through a compelling combination of historical research and critical analysis Cleo Hanaway Oakley demonstrates that Joyce early film makers and phenomenologists Maurice Merleau Ponty in particular share a common enterprise all are concerned with showing rather than explaining the inherence of the self in the world Instead of portraying an objective neutral world bereft of human input Joyce the film makers and the phenomenologists present embodied conscious engagement with the environment and others they are interested in the world as it is lived and transcend the seemingly rigid binaries of seer seen subject object absorptive theatrical and personal impersonal This book re evaluates the history of body and spectator focused film theories placing Merleau Ponty at the centre of the discussion and considers the ways in which Joyce may have encountered such theories In a wealth of close analyses Joyce's fiction is read alongside the work of early film makers such as Charlie Chaplin Georges Méliès and Mitchell and Kenyon and in relation to the philosophical dimensions of early cinematic devices such as the Mutoscope the stereoscope and the panorama By putting Joyce's literary work *Ulysses* above all into dialogue with both early cinema and phenomenology this book elucidates and enlivens literature film and philosophy

Chiasmatic Encounters Kuisma Korhonen, Arto Haapala, Sara Heinämaa, Kristian Klockars, Pajari Räsänen, 2018-01-02 The concept of chiasm has played major role in continental philosophy where it has referred to various phenomenological and hermeneutic structures of reversibility intertwining and encounter In *Chiasmatic Encounters* Art Ethics Politics fourteen international contributors representing various fields of expertise analyze this central concept and its significance for contemporary cultural theory The authors discuss the work of major philosophers like Merleau Ponty Beauvoir Habermas Levinas Derrida and Deleuze adapting their ideas of chiasmatic relations to cultural analysis As the internal and external horizons of perception and experience are intertwined and reversed various cultural texts like a Vermeer painting a symphony of Sibelius a David Lynch movie or a young girl walking in her summer dress are seen from new and unexpected angles The book also addresses the chiasmatic crossing between ethics and politics between unconditional ethical responsibility and always conditional political choices Representing the cutting edge of contemporary cultural theory and interdisciplinary thinking *Chiasmatic Encounters* is essential reading for anyone working in continental philosophy aesthetics or political theory

What Happens to History Howard Marchitello, 2014-06-11 While the questions of ethics have become increasingly important in recent years for many fields within the humanities there has been no single volume that seeks to address the emergence of this concern with ethics across the disciplinary spectrum Given this lack in

currently available critical and secondary texts and also the urgency of the issues addressed by the critics assembled here the time is right for a collection of this nature

Gendered Bodies and New Technologies Amanda Du Preez, 2009 In this era of ubiquitous information flow heightened mobility and limitless consumer convenience human interaction with new technologies has become increasingly seamless In the process the human body is effectively and steadily reduced to just another interface or a second life so to speak What is easily forgotten during this translucent transaction is that being human also necessarily implies being embodied In other words to constitute a body in its non negotiable physicality is still what it entails to be human amongst other things To live daily in and through the complicated and dynamic intersection between mind and body psychology and physiology also known as embodiment is what makes us human

Living in the Landscape Arnold Berleant, 1997 In *Living in the Landscape* Arnold Berleant explores new ways of thinking about how we live and might live in the landscapes that enfold us Through the concepts of aesthetic engagement and environmental continuity he proposes a new paradigm that offers a holistic approach to the meaning of place and places of meaning in our lives Although environmental aesthetics is linked in the popular mind to dramatic vistas and monumental landscapes the Grand Canyon for example Berleant is much more concerned with the commonplace settings of everyday life He argues that our active appreciation of or aesthetic engagement with the prosaic landscapes of home work local travel and recreation plays a vital role in our discovery of hidden continuities as well as pleasure and meaning in the places we inhabit Berleant begins with a general introduction to environmental aesthetics identifying the kinds of experience meanings and values it involves and describing its historical sources and the issues with which it is concerned In the rest of the book he spotlights new directions in the field as they relate to education community creativity and the sacred and provides an insightful analysis of negative environmental aesthetics Throughout he is both thoughtful and entertaining as evidenced in his extended critique of the pop post modern environment of Disney World Berleant addresses issues commonly associated with the environmental movement e g preservation pollution control and quality of life But his study draws from a wide range of disciplines and for that reason should also appeal to scholars and students interested in art and aesthetics landscape architecture and planning urban and environmental design and cultural geography as well as environmental studies

Merleau-Ponty Véronique Marion Fóti, 1996 Although the three sections contain essays written from a wide spectrum of viewpoints they emphasize respectively the important connections of Merleau Ponty's thought to that of Derrida and Levinas the Husserlian heritage and complex implications of his philosophy of material existence and the relation of his philosophy of painting to contemporary abstract art A distinguishing feature of this collection is its emphasis on contemporaneity

Sex, Breath, and Force Ellen Mortensen, 2006-05-25 Provides a reassessment of the question of sexual difference taking into account shifts in feminist thought post humanist theories and queer studies This collection of essays offers insights into the question of sexual difference from a post feminist perspective and how it is reformulated in various related areas of study such as

Dillon, 1988 Originally published in 1988 these studies in phenomenology and existential philosophy is now available in a revised second edition containing a new Preface and a new chapter on Truth in Art One of the few works on Merleau Ponty currently available to an English speaking audience that is sensitive to the deeper insights and subtleties of Merleau Ponty s thought yet is written in clear understandable prose Copyright Libri GmbH All rights reserved **In Place of the Flawed Diamond** Peter J. Hadreas, 1986 In Place of the Flawed Diamond offers a survey and comparative study of Merleau Ponty s philosophy In Peter Hadreas view Merleau Ponty is influenced primarily by Husserl Sartre and Heidegger But the sources of Merleau Ponty s thought cannot be circumscribed by an intellectual narrative which depicts his thought as an inheritance from celebrated intellectual forebears Hadreas shows how Merleau Ponty s thought differs from Husserl s Sartre s and Heidegger s The issues Hadreas discusses include Merleau Ponty s revision of Gestalt psychology his theory of the body subject and his posthumously published doctrines of the flesh and the chiasm These last two issues in particular are contrasted with issues in Heidegger s later philosophy **Merleau-Ponty In Contemporary Perspectives** Patrick Burke, J. van der Veken, 1993-07-31 Merleau Ponty in contemporary perspective this was the theme of the conference at the Institute of Philosophy Katholieke Universiteit Leuven K U L from 29 November to 1 December 1991 Thirty years after Merleau Ponty s untimely death it seemed appropriate to bring together scholars from Europe and from the United States of America to reappraise his philosophy In fact a significant body of scholarship has emerged which would seem to attest to the continuing importance of his thought for a variety of disciplines within the humanities the social sciences and the philosophy of nature In the present volume Gary Brent Madison addresses the issue whether Merleau Ponty can be considered to be a classical philosopher The fact that his work is one of the highlights of the phenomenological tradition and is of continuing inspiration for researchers in various domains seems to justify that claim Yet it is the feeling of many of the contributors to this volume that the so called second Merleau Ponty is still not really known The unfinished state of *The Visible and the Invisible* and the cryptic condition of many of the Working Notes may be responsible for that More research should be done to uncover the unsaid of Merleau Ponty owe to a remark of Paul Ricoeur in his introduction to the work of G B Madison *La Phenomenologie de Merleau Ponty Une recherche des limites de la conscience* Paris Klincksieck 1973 p **Hyper-architecture and the Hyper-real** Maurizio Forte, 2006 International Philosophical Quarterly , 1997 *Ontology and Alterity in Merleau-Ponty* Galen A.
