Chicago Pre-Boomers Richard J. Jackson, 2014-12-18 Many place self interest above personal relationships but Shawn Butler's priorities differ He seeks to elevate people not defeat them When solving problems Shawn collaborates rather than compete In dealing with matters such as a fist fight or a Marine hitch he strives to maintain his perspective Later Shawn enlists his supporters to help him cope with a senseless tragedy As he assembles and trains teams his nerdy best friend Nick analyzes situations When these two men face high stakes decisions their friendship is threatened Most people have a price Will Shawn discover his **Illuminating the Path to Vibrant American Jewish Communities** Jacob B.

Ukeles, 2022-08-17 This book argues that the way to ensure that American Jewish life flourishes is to create vibrant local communities and that the ability to thrive will be won or lost in the trenches of each locality For every generalization about the Jews of America one can say maybe but it depends where In the United States Jewish life is up close and personal where local variations on national themes make a huge difference The author presents case studies using in depth analysis of data from nine Jewish community studies to illuminate eleven critical American Jewish policy issues The analysis is used to formulate a range of policy options for different types of communities This book is for anyone who cares about the future of American Jewry It should be of particular interest to the lay leaders and professionals who play a role in Jewish nonprofits It is also of great interest to researchers and students of Jewish studies and Jewish communal service Spiritual Marketplace Wade Clark Roof, 2001-07-02 In large chain bookstores the religion section is gone and in its place is an expanding number of topics including angels Sufism journey recovery meditation magic inspiration Judaica astrology gurus Bible prophecy evangelicalism Mary Buddhism Catholicism and esoterica As Wade Clark Roof notes such changes over the last two decades reflect a shift away from religion as traditionally understood to more diverse and creative approaches But what does this splintering of the religious perspective say about Americans Have we become more interested in spiritual concerns or have we become lost among trends Do we value personal spirituality over traditional religion and no longer see ourselves united in a larger community of faith Roof first credited this religious diversity to the baby boomers in his bestselling *A Generation of Seekers* 1993 He returns to interview many of these people now in mid life to reveal a generation with a unique set of spiritual values a generation that has altered our historic interpretations of religious beliefs practices and symbols and perhaps even our understanding of the sacred itself The quest culture created by the baby boomers has generated a marketplace of new spiritual beliefs and practices and of revisited traditions As Roof shows some Americans are exploring faiths and spiritual disciplines for the first time others are rediscovering their lost traditions others are drawn to small groups and alternative communities and still others create their own mix of values and metaphysical beliefs Spiritual Marketplace charts the emergence of five subcultures dogmatists born again Christians mainstream believers metaphysical believers and seekers and secularists Drawing on surveys and in depth interviews for over a decade Roof reports on the

religious and spiritual styles family patterns and moral vision and values for each of these subcultures The result is an innovative engaging approach to understanding how religious life is being reshaped as we move into the next century
