Canadian Occupational Performance Measure Manual:

Measuring Occupational Performance Mary C. Law, Carolyn Manville Baum, Winnie Dunn, 2001 Gives background on measurement concepts and issues and explores the central theoretical concept of occupational therapy occupation and occupational performance outcomes Outlines key actions that occupational therapists must implement when conducting assessments reporting findings and interpreting measurement information for intervention planning Measurement issues and practices are discussed and a framework is provided to guide the choice of assessment tools Measurement in the context of a client centered approach is a central theme Law is affiliated with McMaster University Annotation copyrighted by Book News Inc Portland OR

Fundamentals of Hand Therapy Cynthia Cooper (CHT.), 2007-01-01 Emphasizes the development of clinical reasoning skills describing the components of the evaluation process and addressing how to decide what to evaluate Covers a broad array of common diagnoses seen in hand therapy including shoulder and elbow disorders peripheral nerve problems wrist and hand fractures tendonitis and tendonosis finger sprains and deformities tendon injuries arthritis burns infections ganglion cysts stiffness Dupuytren's

Psychosocial Conceptual Practice Models in Occupational Therapy Moses N. Ikiugu, Elizabeth A. Ciaravino, 2007-01-01 This book examines the occupational therapy paradigm its focal viewpoint core constructs and values as well as the role of complexity chaos theory as a scientific framework for occupational therapy research and practice Unlike other current OT texts this book uses clinical case examples to illustrate application of proposed changes to make procedures consistent with the latest Occupational Therapy Practice Framework The reader walks away with a clear grasp of the theoretical principles guiding his or her treatment interventions the explanations behind those principles and the applicable intervention for said techniques and procedures An emphasis on clinical reasoning skills including information on different types of reasoning skills as well as the MAPP model of teaching helps the student and clinician translate theoretical principles into practice The section on specific interventions addresses each of the conceptual practice models according to a consistent chapter template which enables the reader to apply conceptual practice models in real world contexts Preview questions at the beginning of each chapter alert the reader to important concepts in the upcoming text Critical analysis of the theoretical core provides suggested modifications to increase consistency with the new occupational therapy paradigm
