*Bulletin of the Judge Advocate General of the Army*, 1946      **Bulletin of the Judge Advocate General of the Army**  
United States. Army. Office of the Judge Advocate General, 1944      *Bulletin* United States. Army. Office of the Judge  
Advocate General, 1945      *Tax, Welfare, and Pension Reforms in Slovenia* Philippe Egoumé-Bossogo, Anita Tuladhar, 2006-12  
The labor participation rate in Slovenia has been lower than in the EU 15 the members states prior to May 2004 particularly  
for the low income and older individuals Using simulations of tax and social benefits and public pensions the paper shows  
how the current tax welfare and pension systems create disincentives to work among these groups The paper finds that  
incentives to retire early are strong for men especially low wage earners The marginal effective tax rates also make it costly  
for low income individuals to work and negatively affect the probability of participating The paper proposes reform measures  
to enhance work incentives and labor participation which will be crucial for dealing with population aging and for achieving  
higher potential growth in Slovenia      *The Price Current-grain Reporter Year Book ...*, 1918      Republic of Slovenia.  
Selected Issues, 2006      *Bulletin* United States. Army. Judge Advocate General's Department, 1946      *British Secret*  
*Projects 3* Tony Buttler, 2004 8 1 2 x 11 180 b w photos This title completes a trilogy covering the design and development of  
British fighters and bombers from the end of the biplane era to the present day This new volume again emphasizes the  
designs that were never flown It covers aircraft projects that were prepared from the mid 1930s onwards and that were  
influenced by the growing threat of another war with Germany through to some projects which appeared after the war was  
over The latter includes early jets such as the Attacker Sea Hawk and Venom which all flew post war but were designed to  
wartime or immediate post war requirements Among the designs featured in this book are fixed gun fighters turret fighters  
twin engine cannon fighters light medium and heavy bombers torpedo bombers and flying boats As in the trilogy's first two  
volumes these designs are covered with detailed descriptions and data and numerous photographs of models or artists  
impressions showing how these designs would have looked Unlike the post war years details of many earlier unbuilt projects  
have been lost but fortunately information on a great number of these has survived and this will form the most complete  
record to be published on these fascinating machines      **Popular Photography**, 1973
