Canada Revisited 7 Chapter 5:

Religion and Canadian Society Lori G. Beaman, 2012 This text offers an outstanding selection of readings that represent an overview of the key issues in the sociology of religion from a uniquely Canadian perspective Masterfully planned and united by clearly articulated themes the second edition moves through three thematic cornerstones contexts identities and strategies Recurring sub themes include the definition of religion the secularization debate the challenge of diversity and the gendered aspects of religious experience Key additions to this edition include a discussion on cultural diversity an exploration of religion and sexuality and a thorough historical overview of religion in Canada

Social Welfare in Canada Revisited Andrew Armitage, 1996 This book under the title Social Welfare in Canada has been a standard text in the field of Canadian social welfare for twenty years In this completely revised and updated third edition Armitage examines the legacy of the welfare state in Canada and also explores an uncertain future for social welfare Many changes in the Canadian political and economic climate threaten the social safety net that has been developed since World War II the deficit burdens of federal and provincial governments the real possibility of Quebec's succession from Canada conservative and even reactionary government retrenchment in the social policy field as a means to cut deficits and to remain economically competitive in the face of globalization and North American free trade Armitage writes that the liberal vision remains capable of guiding a collective response to the economic and social policy changes of the twenty first century and emphasizes that both sets of challenges have to be dealt with together The foremost underlying theme here is a renewed conviction that Canadian society must become more just more tolerant and more humane despite political and economic pressures to the contrary While programs such as Unemployment Insurance Workers Compensation and retirement benefits which were designed for conditions 50 years ago must be thoroughly reappraised the situation of single mothers and their children and the growing number of children in poverty comprise the central challenge for social policy Social policy needs to be rebuilt from the bottom up and the bottom means the standard of living that is afforded to those who are worst off

Aboriginal Canada Revisited Kerstin Knopf, 2008 Aboriginal Canada Revisited examines the current political and cultural position of Canada's Aboriginal peoples in a series of interdisciplinary essays The contributors to this volume explore Aboriginal politics and representation health education and other social issues and look at how contemporary Aboriginals find voice in literature art print media and film While acknowledging the vibrancy and diversity of Aboriginal cultural expression and the developing dialogue between Aboriginal and non Aboriginal people this book also draws attention to areas where the colonial legacy is still taking its toll and to the systemic problems that continue to marginalize Aboriginal people within Canadian society

BOOK JACKET

Canada's Global Villagers Ruth Compton Brouwer, 2013-09-27 Established in 1961 the same year as the US Peace Corps Canadian University Service Overseas CUSO became the first Canadian NGO to undertake development work from a secular stance and in a context of rapid decolonization Over the next twenty five years nine thousand volunteers many

of them women travelled to over forty countries and became Canada's face in the Global South Drawing on more than one hundred interviews Brouwer tells the story of how these young Canadians responded to the challenges of underdevelopment Moving beyond their initial naiveté they sought to fit into the host communities that had invited them and to provide social services particularly in education Returning home they brought unique skills to the Canadian International Development Agency CIDA and other development organizations and a new level of global consciousness and cultural diversity to Canadian society At a time when many are concerned about Canada's waning reputation for global humanitarianism this book reminds us of an earlier more hopeful time

Canadian Gothic Cynthia Sugars, 2014-01-15 This book explores the Gothic tradition in Canadian literature by tracing a distinctive reworking of the British Gothic in Canada It traces the ways the Gothic genre was reinvented for a specifically Canadian context On the one hand Canadian writers expressed anxiety about the applicability of the British Gothic tradition to the colonies on the other they turned to the Gothic for its vitalising rather than unsettling potential After charting this history of Gothic infusion Canadian Gothic turns its attention to the body of Aboriginal and diasporic writings that respond to this discourse of national self-invention from a post-colonial perspective These counter-narratives unsettle the naturalising force of this invented history rendering the sense of Gothic comfort newly strange The Canadian Gothic tradition has thus been a conflicted one which reimagines the Gothic as a form of cultural sustenance This volume offers an important reconsideration of the Gothic legacy in Canada

Sensing Space Claire Omhòvère, 2007 This book enlarges the perspective of literary geography which tends to focus on the correspondence between the objective world the geographer addresses and its subjective rendering in art Instead it considers how geography informs fresh aesthetic responses to space in contemporary Canadian literature with specific attention to the writings of Alistair MacLeod Jane Urquhart Anne Michaels Aritha van Herk Rudy Wiebe Robert Kroetsch and Thomas Wharton This broadening leads to a series of interrogations what blanks in conventional landscape writing does physical geography fill and how Where does the efficiency of geography lie beyond its scientific accuracy or descriptive relevance Pondering the role of geography in a work of art therefore amounts to considering what makes geography work as art is there such a thing as a poetics of geography Because the place of the writer and the representation of space remain two central concerns in Canadian writing the texts under scrutiny help elucidate the critical role performed by the geographical imagination a phrase used by theoreticians as diverse as Edward Said Edward Soja or Derek Gregory in the fabrication of symbolic ties between Canadians and the land they have come to share
