**Pearson's Peacekeepers** Michael K. Carroll, 2010-01-01 In 1957 Lester Pearson won the Nobel Peace Prize for creating the United Nations Emergency Force during the Suez crisis The award launched Canada's enthusiasm and reputation for peacekeeping Pearson's Peacekeepers explores the reality behind the rhetoric by offering a detailed account of the UNEF's decade long effort to keep peace along the Egyptian Israeli border While the operation was a tremendous achievement the UNEF also encountered formidable challenges and problems This nuanced account of Canada's participation in the UNEF challenges perceived notions of Canadian identity and history and will help Canadians to accurately evaluate international peacekeeping efforts today *The History of the 16th Battalion (the Canadian Scottish)* Hugh MacIntyre Urquhart, 1932

**Cautious Beginnings** Kurt F. Jensen, 2009-01-01 Kurt F Jensen argues that Canada was a more active intelligence partner in the Second World War alliance than has previously been suggested He describes Canada's contributions to Allied intelligence before the war began as well as the distinctly Canadian activities that started from that point He reveals how the government created an intelligence organization during the war to aid Allied resources This is a convincing portrait of a nation with an active role in Second World War intelligence gathering one that continues to influence the architecture of its current capabilities **Directory of Libraries in Canada**, 2001 **HMS Terror** Matthew Betts, 2020-10-30 In the summer of 1845 Sir John Franklin and a crew of 134 men entered Lancaster Sound on board HMS Erebus and HMS Terror in search of a Northwest Passage The sturdy former bomb ships were substantially strengthened and fitted with the latest technologies for polar service and at the time were the most advanced sailing vessels developed for Polar exploration Both ships but especially HMS Terror had already proven their capabilities in the Arctic and Antarctic With such sophisticated rugged and successful vessels victory over the Northwest Passage seemed inevitable yet the entire crew vanished and the ships were never seen again by Europeans Finally in 2014 the wreck of HMS Erebus was discovered by Parks Canada Two years later the wreck of HMS Terror was found sitting upright in near pristine condition The extraordinarily well preserved state and location of the ships so far south of their last reported position raises questions about the role they played in the tragedy Did the extraordinary capabilities of the ships in fact contribute to the disaster Never before has the Franklin Mystery been comprehensively examined through the lens of its sailing technology This book documents the history design modification and fitting of HMS Terror one of the world's most successful polar exploration vessels Part historical narrative and part technical design manual this book provides for the first time a complete account of Terror's unique career as well as an assessment of her sailing abilities in polar conditions a record of her design specifications and a full set of accurate plans of her final 1845 configuration Based on meticulous historical research the book details the ship's every bolt and belaying pin and ends with the discovery and identification of the wreck in 2016 explaining how the successes and ice worthiness of Terror may have contributed to the Franklin disaster itself It is an ideal reference for those interested in the Franklin
