Candlelight Application Form 2015:

How Much Is Clean Air Worth? Ari Rabl, Joseph V. Spadaro, Mike Holland, 2014-07-10 How Much Is Clean Air Worth offers readers a comprehensive overview of the core methodologies and tools used to quantify the impacts and damage costs of pollution. The book begins by reviewing the tools used for environmental assessments and shows that a rational approach requires an impact pathway analysis (IPA) for each of the possible impacts of a pollutant, i.e., an analysis of the chain: emission, dispersion, exposure, response functions, monetary valuation. The IPA methodology is explained in full and illustrated with worked examples and difficulties are discussed and uncertainties analysed. In addition to detailed computer models, a very simple model, the Uniform World Model, is presented, enabling readers to make estimates for cases where no results are available. Published results for electricity, waste treatment and transport are reviewed with a thorough discussion of policy implications. This book will appeal to a broad mix of academics, graduate students and practitioners in government and industry working on cost-benefit analysis, environmental impact analysis and environmental policy. Sustainable Urbanism and Direct Action Benjamin Heim Shepard, 2021-06-02 Urban activism can manifest in many guises, from community gardening to mass naked bike rides. But how might we theorize the evidence of the collisions between social forces that take place in our streets and public commons? Cities are formed through these collective collisions in time. This book draws on the author's own vast experience as an activist to make links between a theory of practice with rich discussion of the histories of conflicts over public space. Each chapter examines activist responses to a range of issues that have confronted New Yorkers: from the struggle for green space and non-polluting transportation to housing and the fight for sexual civil liberties. The cases are shaped through interplay between multiple data sources, including the author's own voice as an observing participant as well as interviews with other participant-activists, historic accounts and theoretical discussion. Taken together, these highlight a story of urban public space movements and the ways they shape cities and are shaped by history. **Women Architects at Work** Mary Anne Hunting, Kevin D. Murphy, 2025-02-18 A comprehensive history of the women architects who left their enduring mark on American Modernism. In the decades preceding World War II, professional architecture schools enrolled increasing numbers of women, but career success did not come easily. *Women Architects at Work* tells the stories of the resilient and resourceful women who surmounted barriers of sexism, racism and classism to take on crucial roles in the establishment and growth of Modernism across the United States. Mary Anne Hunting and Kevin D. Murphy describe how the Cambridge School of Architecture and Landscape Architecture in Massachusetts evolved for the professional education of women between 1916 and 1942. While alumnae such as Eleanor Agnes Raymond, Victorine du Pont Homsey and Sarah Pillsbury Harkness achieved some notoriety, others like Elizabeth Ann Campbell Knapp and Louisa Vaughan Conrad have been largely absent from histories of Modernism. Hunting and Murphy describe how these innovative practitioners capitalized on social, educational and professional ties to achieve success and used architecture to address social concerns.

including how modernist ideas could engage with community and the environment Some joined women led architectural firms while others partnered with men or contributed to Modernism as retailers of household furnishings writers and educators photographers and designers or fine artists With stunning illustrations *Women Architects at Work* offers new histories of recognized figures while recovering the stories of previously unsung women all of whom contributed to the modernization of American architecture and design

Dog Days Ivan Franceschini, Nicholas Loubere, 2019-04-05 According to the Chinese zodiac 2018 was the year of the earthly dog In the middle of the long hot and feverish dog days of the summer of 2018 some workers at Shenzhen Jasic Technology took their chances and attempted to form an independent union While this action was met by the harshest repression it also led to extraordinary demonstrations of solidarity from small groups of radical students from all over the country which in turn were immediately and severely suppressed China's year of the dog was also imbued with the spirit of another canine Cerberus the three headed hound of Hades with the ravenous advance of the surveillance state and the increasing securitisation of Chinese society starting from the northwestern region of Xinjiang This Yearbook traces these latest developments in Chinese society through a collection of 50 original essays on labour civil society and human rights in China and beyond penned by leading scholars and practitioners from around the world
