

# Caregiver Note

**Date:** 09/15/2023

**Patient name:** Margaret Johnson

**Caregiver name:** Emma Miller

## Summary of visit

Brief overview of the visit, including any significant events or observations.

Today's visit was routine. Margaret was in good spirits and we focused on her mobility exercises and personal hygiene.

## Client's health status

Describe the client's current health condition, including any changes since the last visit.

Margaret's overall health appears stable. Her blood pressure was slightly elevated (145/90), but within her normal range. She mentioned feeling a bit more tired than usual but attributed it to poor sleep last night.

## Tasks completed

List the tasks performed during the visit, such as medication administration, personal care assistance, or household chores.

Assisted with morning hygiene routine (shower, dressing, grooming)  
Administered prescribed medications  
Prepared and served breakfast  
Completed 20 minutes of prescribed mobility exercises  
Light housekeeping (dusted living room, changed bed linens)

## Client's well-being

Note any indicators of the client's emotional or mental well-being, including mood, engagement, or any concerns raised.

Margaret was cheerful and engaged in conversation throughout the visit. She expressed excitement about her daughter's upcoming visit this weekend. No signs of confusion or disorientation were observed.

**Writing and Reading Mental Health Records** J. Frederick Reynolds, David C. Mair, Pamela C. Fischer, 2013-12-02 This revised and updated second edition is a rhetorical analysis of written communication in the mental health community As such it contributes to the growing body of research being done in rhetoric and composition studies on the nature of writing and reading in highly specialized professional discourse communities Many compelling questions answered in this volume include What ideological biases are reflected in the language the nurse rhetorician uses to talk to and talk about the patient How does language figure into the process of constructing meaning in this context What social interactions with the patient with other nurses with physicians influence the nurse's attempt to construct meaning in this context How do the readers of assessment construct their own meanings of the assessment Based on an ongoing collaboration between composition studies specialists and mental health practitioners this book presents research of value not only to writing scholars and teachers but also to professional clinicians their teachers and those who read mental health records in order to make critically important decisions It can also be valuable as a model for other scholars to follow when conducting similar long range studies of other writing intensive professions
