

CHAPTER 2

REVIEW OF RELATED LITERATURE

INTRODUCTION

A review of literature is a classification and evaluation of what accredited scholars and researchers have written on a topic, organized according to a guiding concept such as a research objective, thesis or the problem / issue to be addressed. It is the scholarly core of the dissertation. It is an analysis and synthesis of the source materials, written in a specific style which flows from broad to narrow and takes into account both the theoretical and empirical issues. The main purpose of the review of literature is to report on original research or experimentation in order to make such information available to the rest of the scholarly world.

According to Best & Kahn (1989), Review of related literature is the summary of writings of recognized authorities and of previous research provides evidence that the researcher is familiar with what is already known and what is still unknown and untested. Since effective research is based upon past knowledge, this step helps to eliminate the duplication of what has been done and provides useful hypotheses and helpful suggestions for significant investigation. Citing studies that show substantial agreement and those that seem to present conflicting conclusions helps to sharpen and define understanding of existing knowledge in the problem area, provides a background for the research project and makes the reader aware of the status of the issue. Only those studies that are plainly relevant, competently executed and clearly reported should be included.

In searching related literature, the researcher should note certain important elements. They are

- Reports of studies of closely related problems that have been investigated.
- Design of the study, including procedures employed and data gathering instruments used.
- Populations that were sampled and sampling methods employed
- Variables that were defined
- Extraneous variables that could have affected the findings
- Faults that could have been avoided
- Recommendations for further research

The studies collected and reviewed are presented under the following headings:

Chapter 2 Overview And Research Review

Chapter 2 Overview And Research Review:

Program scheduling and simulation in an operating system environment bernard lampard, 2014-02-03 Research Paper postgraduate from the year 2011 in the subject Computer Science Commercial Information Technology grade A Massachusetts Institute of Technology language English abstract CPU scheduling is a technique used by computer operating systems to manage the usage of the computer's central processing unit. In a multi-programming environment whereby several processes are running on the same processor, it is essential to use scheduling criteria to avoid collisions in the computer's operations. This will help users in a given information technology-oriented firm to share server spaces and resources like printers and file storage spaces. In the multi-tasking environment, a program called CPU scheduler selects one of the ready processes and allocates the processor to it. There are a number of occasions when a new process can or must be chosen to run. When a running process blocks and changes its state to Blocked. When a timer for a running process expires. When a waiting process unblocks and changes its state to Ready. And when a running process terminates and changes its state to Exit. Wikipedia 2013. Different types of scheduling programs referred to as algorithms can be employed in CPU scheduling instances. Among the most popular scheduling algorithms is Shortest Job First (SJF). SJF gives the processor to the process with the shortest next time allocation, known as the burst. If there are processes with similar CPU bursts in the event queue, the scheduler uses First Come First Served algorithm, which allocates the first process to arrive in the queue to the processor regardless of its burst time. It operates under the assumption that the length of the next CPU burst of each of the processes in the ready queue is known. CPU scheduling 2013. The SJF algorithm can be used in both pre-emptive and non-preemptive methods. The algorithm can be preemptive or not. Shortest Job First with preemption uses priority measure to determine the next process to be given the CPU. The processes will be having different CPU bursts and different priority levels allocated to them. The process with the least priority magnitude is always picked next. A process already allocated the processor can be preempted the CPU and allocation done to another process with higher priority when such a process arrives in the queue. SJF with non-preemptive operates in the normal procedure whereby the job with the least CPU burst in the waiting queue is always picked next for allocation of the CPU and the rest of the processes have to wait no matter their urgency. Based on the introduction above, it is essential to use the right CPU scheduling strategy to help us achieve.

Review of the Environmental Protection Agency's Draft IRIS Assessment of Tetrachloroethylene National Research Council, Division on Earth and Life Studies, Board on Environmental Studies and Toxicology, Committee to Review EPA's Toxicological Assessment of Tetrachloroethylene, 2010-04-18. Tetrachloroethylene is a volatile chlorinated organic hydrocarbon that is widely used as a solvent in the dry cleaning and textile processing industries and as an agent for degreasing metal parts. It is an environmental contaminant that has been detected in the air, groundwater, surface waters, and soil. In June 2008, the U.S. Environmental Protection Agency released its draft Toxicological Review of Tetrachloroethylene.

Perchloroethylene CAS No 127 18 4 in Support of Summary Information on the Integrated Risk Information System IRIS The draft IRIS assessment provides quantitative estimates of cancer and noncancer effects of exposure to tetrachlorethylene which will be used to establish airquality and water quality standards to protect public health and to set cleanup standards for hazardous waste sites At the request of EPA the National Research Council conducted an independent scientific review of the draft IRIS assessment of tetrachloroethylene from toxicologic epidemiologic and human clinical perspectives The resulting book evaluates the adequacy of the EPA assessment the data and methods used for deriving the noncancer values for inhalation and oral exposures and the oral and inhalation cancer unit risks posed by tetrachloroethylene evaluates whether the key studies underlying the draft IRIS assessment are of requisite quality reliability and relevance to support the derivation of the reference values and cancer risks evaluates whether the uncertainties in EPA s risk assessment were adequately described and where possible quantified and identifies research that could reduce the uncertainty in the current understanding of human health effects associated with tetrachloroethylene exposure Introduction to Educational

Research Craig A. Mertler, 2021-11-14 This Third Edition of Craig Mertler s practical text helps readers every step of the way as they plan and execute their first educational research project Offering balanced coverage of qualitative and quantitative methods an emphasis on ethics and a wealth of new examples and concrete applications the new edition continues to use conversational nontechnical language to help students clearly understand and apply research concepts principles procedures and terminology Expanded coverage of foundations of research an increased focus on integrating qualitative and quantitative research and updated coverage of research questions and the tools of qualitative research bring the book thoroughly up to date while streamlined coverage of statistics shows students how to do quantitative analysis in a straightforward way **An**

investigation of the effectiveness of social media marketing on the marketing performance of Selected Higher Education Institutions in Zambia Francis Mukosa, 2022-10-12 Doctoral Thesis Dissertation from the year 2022 in the subject Communications Public Relations Advertising Marketing Social Media grade Pass course Marketing language English abstract HEIs in Zambia have adopted the use of social media in advertising online learning and also for administrative purposes Social media has developed in the recent years to a level where it presents itself as the biggest virtual market with the potential to increase geographic markets and revenue for organizations While cases of HEIs that have used social media marketing for purposes of marketing exist in other places there is no significant research in the Zambian environment that shows empirical evidence that the use of social media marketing can impact marketing performance in HEIs The purpose of this study is to investigate the effectiveness of social media marketing on marketing performance in HEIs and the findings are meant to build a model for social media marketing for HEIs in Zambia in see figure 5 2 in Chapter 5 Data in this research was collected from twelve HEIs using both qualitative and quantitative research methods since this research is a mixed research with both deductive and inductive arguments The data collection techniques included a semi structured interview

for qualitative data and a semi structured questionnaire for the quantitative data Data analysis was carried out using different techniques in SPSS for the quantitative data and content analysis using Google analytics for the qualitative data The implications of the findings in chapter four mean that HEIs in Zambia must begin to use social media not only for administrative or advertising purposes but they must use it effectively as a tool to increase their market share and increase their revenue The findings and data analysis in this research indicated that social media is effective in marketing HEIs in Zambia however these institutions must adopt the suggested model in Figure 5 2 in Chapter 5 if they are to enhance social media performance for marketing

Best-Practice Framework for Developing and Implementing E-Government

Abdelbaset Rabaiah,2010-09 In this study of electronic systems in government case studies are used to compare e government across 21 countries The goal of the research to see if there is a global convergence in the way governments use electronic information and the findings suggest that most countries have much in common In particular concepts regarding service delivery internal and external efficiency and government networking were found to be similar across the sample governments

Introduction to Educational Research Craig A. A. Mertler,2024

Discovery and Development of Anti-inflammatory Agents from Natural Products Goutam Brahmachari,2019-07-11 *Discovery and Development of Anti-inflammatory Agents from Natural Products* the latest volume in the Natural Product Drug Discovery series presents cutting edge research advances in the field of bioactive natural products and natural drug formulations with this volume focusing on molecules of natural origin and their synthetic analogues that have the potential to act against the pathogens responsible for inflammatory diseases All aspects of each are covered including isolations and structure elucidations in vitro and in vivo biological activity synthetic optimization investigations of pharmacodynamics and kinetics and the structure activity relationships of anti inflammatory natural products Written by active researchers and leading experts this book brings together an overview of current discoveries and trends in this field It will be a valuable resource for researchers working to discover promising leads for the development of pharmaceuticals in the prevention and treatment of anti inflammatory diseases Features contributions from active researchers and leading experts working in medicinal natural products and herbal formulations Includes recent cutting edge advances on medicinal natural products along with preventative therapies for different kinds of inflammation directed diseases Offers an authoritative source of information on the industrial application of natural products for medicinal purposes

The Relationship between Main Contractors and Subcontractors in the Zambian Construction Industry

Tafadzwa Mudzvokorwa,2017-07-10 Master s Thesis from the year 2016 in the subject Engineering Civil Engineering University of Zambia course Master of Engineering Project Management language English abstract In recent years there have been a substantial number of projects conducted in the Zambian construction industry Due to the magnitude and complexity of many of these projects contractors have resorted to subcontracting to share responsibilities and mitigate project risks The Zambian government has also invigorated the practice

of subcontracting in the construction industry as it plays an important role in increasing economy viability and building capacity. Instead of improving project success, subcontracting can act as a catalyst for poor project outcomes. Though there are many reasons that contribute to problems from subcontracting, a poor relationship between main contractors and subcontractors can be seen as a notorious contributor affecting construction works. The study aimed at investigating the relationship between the main contractors and subcontractors in the Zambian construction industry and recommend a framework that can be implemented to better the relationship. The study also examined the effects of a poor interface between main contractors and subcontractors in Zambia. Data collection techniques used included literature review, interviews and questionnaire surveys. The relative importance index was used to determine the ranking of the results of the study. Using the results adduced from the study, a main contractor-subcontractor non-contractual partnering model was developed. The study established that the relationship between main contractors and subcontractors in Zambia is poor, therefore needing attention. Interface problems were caused by payment issues, poor communication, unexpected price escalations and poor construction work. In order to address interface problems, the study found that there was need for better communication between the parties, timely payments and subcontractors access to labour and machinery. However, the study had some limitations that need consideration when interpreting the results found. The limitations included scarcity of specific literature on subcontracting in the Zambian construction industry, the size of the sample only being limited to Lusaka. Nevertheless, these limitations could be addressed through further studies.

The attractiveness of South Africa as offshore destination for call centre services Anita Hintringer, 2013-06-26 Master's Thesis from the year 2012 in the subject Business economics Miscellaneous grade 1.0 language English abstract This research report is entitled 'An investigation into the attractiveness of South Africa as offshore destination for call centre services to the UK'. An important objective of this research report was to investigate the factors and key issues that determine South Africa's attractiveness to deliver offshore call centre services to the UK, largely from the perspective of existing call centre outsourcers with their recent and first-hand experience and expertise in this industry. The ultimate objective was to determine the attractiveness of South Africa for UK call centre offshoring. To achieve the above, it was determined that a combination of qualitative investigative research combined with a quantitative approach would be conducted with data gathering. Primary research was done by conducting in-depth interviews with individuals holding management positions with established call centre outsourcers in South Africa to determine the attractiveness of the location. Overall, it was found that South Africa is averagely attractive for UK call centre service offshoring. Outsourcers highlight that at present, offshoring is because of the global economic climate, a very difficult market to be in. However, if South Africa addresses challenges successfully, e.g. skills shortage in middle management, it can build the right foundation to grow the industry for the future. The location is attractive as it offers cost savings when compared to the UK client market, but other locations outperform South Africa in this respect. Therefore, the location is only

attractive for a UK niche market as a cheaper but nonetheless premium location that delivers additional benefits relevant to UK business which other locations do not offer These can be found in service delivery and quality and South Africa's alignment with Western industry standards

The impact of globalisation on Germany's Electrical Installation System companies Adriano Denaro, 2020-10-08 Master's Thesis from the year 2015 in the subject Business economics Operations Research grade 2.0 Buckinghamshire New University language English abstract This thesis aims to research the question does globalization impact the strategies of the German Electrical Installation companies and how are the conditions for further growth This thesis conducted a mixed method approach to achieve this research aim For the theoretical sensitivity this study uses PESTEL Yip's Internationalisation Driver's as well as Porter's Five Forces Framework followed by survey research Building upon these a survey was conducted within the German electrical industry to research on the study's research question empirically With obtaining these empirical data this thesis gained management and expert insights Based on the research objectives the evaluation represents that with this survey it was possible to identify discuss and analyze the strategic position the strategic choices and the conditions for further growth of Germany's Electrical Installation System companies The first main recognition gained in this dissertation is that innovation projects such as the project Industry 4.0 from the German Federal Government is not considered in the strategies of German Electrical Installation companies This is a disadvantage because other nations working intensively on this topic This is seen most critical for the future of the German Electric Industry The recommendation is to rework the current strategies and to include innovation projects such as the project Industry 4.0 The next important outcome of the elaboration is that the globalisation affects the strategies of German Electrical Installation companies and the companies under research have no really internationalisation strategy although they are international active The survey shows that the essential inputs of the respondents lead to a preferred internationalisation strategy The simple export This result with respect to the respondents which have a strategy leads not only to advantages but also it leads to disadvantages The advantages are on the one hand cost aspects There are no operational facilities needed in the host country and by using the Internet they are able to gain access into the international market But on the other hand this strategy does not allow the firm to benefit from the location advantages of the host nation and limits the opportunities to gain knowledge of the local market and respectively of the customers

Retail Category Management Alexander Hübner, 2011-08-30 Retail shelf management means cost efficiently aligning retail operations with consumer demand As consumers expect high product availability and low prices and retailers are constantly increasing product variety and striving towards high service levels the complexity of managing retail business and its operations is growing enormously Retailers need to match consumer demand with shelf supply by balancing variety number of products and service levels number of items of a product and by optimizing demand and profit through carefully calibrated prices As a result the core strategic decisions a retailer must make involve assortment sizes shelf space assignment and pricing levels

Rigorous quantitative methods have emerged as the most promising solution to this problem. The individual chapters in this book therefore focus on three areas: 1. combining assortment and shelf space planning, 2. providing efficient decision support systems for practically relevant problem sizes, and 3. integrating inventory and price optimization into shelf management.

PDQ Evidence-based Principles and Practice Ann McKibbin, Nancy Wilczynski, 2009. PDQ Evidence Based Principles and Practice addresses the concepts of evidence based health care in a gentle non technical manner. One of its two major purposes is to provide a background to understand health care research and how best to evaluate and apply new research findings in health. The audience is librarians and other information professionals who work with health professionals. Clinicians seeking a gentle approach to working with health research findings will also benefit. In addition, the book outlines how best to identify important studies in health care published in the large bibliographic databases such as MEDLINE and the Internet. Readers found the first edition useful in understanding health research and seeking this information. The second edition strengthened both purposes. It also adds 4 new chapters to the existing 9 that cover new areas of understanding and producing health research. All chapters from the previous edition have been revised. Several new chapters on hot topics have been added: Clinical Prediction Guides, Decision Analyses, Differential Diagnosis and Disease Manifestation, and Health Technology Assessment. Proven and validated search strategies for use in the large electronic biomedical databases have been included in the edition. Lists of possible searching terms have been enhanced and enlarged. We have also added an appendix of terms used in the book using plain language descriptions as well as searching tips and sites for retrieval in the categories of health research. This book helps the reader develop optimal effective MEDLINE search strategies. It offers step by step suggestions for retrieving sound clinical studies on the etiology, prognosis, diagnosis, prevention, and management of disorders encountered in adult general medicine. Key Features: Gentle non technical introduction to the concepts of evidence based health care. Provides a background to understanding health care research. Provides a guide for evaluating health care research. Provides searching tips and techniques to enhance and speed searching for health care research in the large electronic databases. Collects searching terms effective for retrieval of clinically important material from MEDLINE and related databases.

Research Gap Analysis for Zero-net Energy Buildings Smita Gupta, Jeremy Smith, Itron, Inc, 2019

A Hypothetical Enhanced Renewable Energy Utilization (EREU) Model for Electricity Generation in Thailand Thomas Andexer, 2008-10-29. Master's Thesis from the year 2008 in the subject Environmental Sciences, grade Passed. Assumption University of Thailand, College of Internet Distance Education, CIDE School of Business Administration course. Master Thesis Project language English. Abstract: This thesis presents a research project entitled A Hypothetical Enhanced Renewable Energy Utilization EREU Model for Electricity Generation in Thailand. This research is motivated by Thailand's rapidly increasing electricity consumption caused by the country's long standing above average economic growth. Consequently, the rising electricity demand can only be satisfied by continuously growing electricity imports and thus creating a significant

burden to Thailand's national budget. Furthermore, Thailand is heavily dependent on natural gas reserves for electricity generation; however, these are expected to be depleted within only three decades, and global price levels for conventional fuels are increasingly volatile with an ascending tendency as well. Therefore, Thailand faces an urgent need to strategically plan for the broad utilization of domestic renewable energy resources, which is essential for a more diversified and thus sustainable electricity generation as well as for the nation's endeavor to become an energy hub within the South East Asian region. Under these circumstances, this research conducts a comprehensive literature review regarding the past development as well as the current situation of renewable energy utilization in Thailand, which concludes in the identification of the importance of renewable energy in the given context and closes with both a distinctive needs assessment and a conceptual framework for Thailand's future renewable energy strategy. Subsequently, the research introduces a unique primary research endeavor in the form of an explorative expert interview survey, which succeeds in a substantial collection of qualitative and in-depth data. These valuable data are first objectively analyzed and second subjectively interpreted and summarized to become the major source for the derivation of a multitude of potential strategic recommendations for an enhanced future renewable energy utilization development in Thailand. Finally, the entirety of these recommended strategic approaches, based on both the secondary and primary research, are assembled to develop the Enhanced Renewable Energy Utilization (EREU) model for electricity generation in Thailand as the fundamental finding of this thesis and research project, respectively.

Chapter 2 Overview And Research Review Introduction

In today's digital age, the availability of Chapter 2 Overview And Research Review books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Chapter 2 Overview And Research Review books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Chapter 2 Overview And Research Review books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Chapter 2 Overview And Research Review versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation.

Furthermore, Chapter 2 Overview And Research Review books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Chapter 2 Overview And Research Review books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Chapter 2 Overview And Research Review books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and

historical documents. In conclusion, Chapter 2 Overview And Research Review books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Chapter 2 Overview And Research Review books and manuals for download and embark on your journey of knowledge?

FAQs About Chapter 2 Overview And Research Review Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Chapter 2 Overview And Research Review is one of the best book in our library for free trial. We provide copy of Chapter 2 Overview And Research Review in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Chapter 2 Overview And Research Review. Where to download Chapter 2 Overview And Research Review online for free? Are you looking for Chapter 2 Overview And Research Review PDF? This is definitely going to save you time and cash in something you should think about. If you trying to find then search around for online. Without a doubt there are numerous these available and many of them have the freedom. However without doubt you receive whatever you purchase. An alternate way to get ideas is always to check another Chapter 2 Overview And Research Review. This method for see exactly what may be included and adopt these ideas to your book. This site will almost certainly help you save time and effort, money and stress. If you are looking for free books then you really should consider finding to assist you try this. Several of Chapter 2 Overview And Research Review are for sale to free while some are payable. If you arent sure if the books you would like to download works with for usage along with your computer, it is possible to download free trials. The free guides make it easy for someone to

free access online library for download books to your device. You can get free download on free trial for lots of books categories. Our library is the biggest of these that have literally hundreds of thousands of different products categories represented. You will also see that there are specific sites catered to different product types or categories, brands or niches related with Chapter 2 Overview And Research Review. So depending on what exactly you are searching, you will be able to choose e books to suit your own need. Need to access completely for Campbell Biology Seventh Edition book? Access Ebook without any digging. And by having access to our ebook online or by storing it on your computer, you have convenient answers with Chapter 2 Overview And Research Review To get started finding Chapter 2 Overview And Research Review, you are right to find our website which has a comprehensive collection of books online. Our library is the biggest of these that have literally hundreds of thousands of different products represented. You will also see that there are specific sites catered to different categories or niches related with Chapter 2 Overview And Research Review So depending on what exactly you are searching, you will be able to choose ebook to suit your own need. Thank you for reading Chapter 2 Overview And Research Review. Maybe you have knowledge that, people have search numerous times for their favorite readings like this Chapter 2 Overview And Research Review, but end up in harmful downloads. Rather than reading a good book with a cup of coffee in the afternoon, instead they juggled with some harmful bugs inside their laptop. Chapter 2 Overview And Research Review is available in our book collection an online access to it is set as public so you can download it instantly. Our digital library spans in multiple locations, allowing you to get the most less latency time to download any of our books like this one. Merely said, Chapter 2 Overview And Research Review is universally compatible with any devices to read.
