## Chapter 20 Section 3 The Great Society:

The Business of Incarceration Justin Bronson Barringer, Sarah Frances Farmer, James McCarty, 2025-04-29 There has been perhaps no political issue in contemporary America able to garner as widespread agreement as the need to end our system of mass incarceration Racial justice advocates fiscal conservatives prison abolitionists and more believe that America incarcerates far too many of its people This book provides tools for Christians seeking to understand this massive social injustice its theological and historical origins and faithful ways of resisting and ending this system The Business of Incarceration places the political economic system that is the prison industrial complex at the center of the story it tells the analysis it provides and the engagement it recommends The second volume in The Business of Modern Life series this book extends the groundbreaking theo ethical analysis in The Business of War Theological and Ethical Reflections on the Military Industrial Complex to another social sphere that is supposedly oriented to the common good but is now dominated by logics of market and profit making

**The Great Society Subway** Zachary M. Schrag, 2014-08 As Metro stretches to Tysons Corner and beyond this paperback edition features a new preface from the author Drivers in the nation's capital face a host of hazards high speed traffic circles presidential motorcades jaywalking tourists and bewildering signs that send unsuspecting motorists from the Lincoln Memorial into suburban Virginia in less than two minutes And parking Don't bet on it unless you're in the fast lane of the Capital Beltway during rush hour Little wonder then that so many residents and visitors rely on the Washington Metro the 106 mile rapid transit system that serves the District of Columbia and its inner suburbs In the first comprehensive history of the Metro Zachary M Schrag tells the story of the Great Society Subway from its earliest rumblings to the present day from Arlington to College Park Eisenhower to Marion Barry Unlike the pre World War II rail systems of New York Chicago and Philadelphia the Metro was built at a time when most American families already owned cars and when most American cities had dedicated themselves to freeways not subways Why did the nation's capital take a different path What were the consequences of that decision Using extensive archival research as well as oral history Schrag argues that the Metro can be understood only in the political context from which it was born the Great Society liberalism of the Kennedy Johnson and Nixon administrations The Metro emerged from a period when Americans believed in public investments suited to the grandeur and dignity of the world's richest nation The Metro was built not merely to move commuters but in the words of Lyndon Johnson to create a place where the city of man serves not only the needs of the body and the demands of commerce but the desire for beauty and the hunger for community Schrag scrutinizes the project from its earliest days including general planning routes station architecture funding decisions land use impacts and the behavior of Metro riders The story of the Great Society Subway sheds light on the development of metropolitan Washington postwar urban policy and the promises and limits of rail transit in American cities
