Chapter 2cold War Conflicts Notes:

War and Conflict in Africa Paul D. Williams, 2013-04-26 After the Cold War Africa earned the dubious distinction of being the world's most bloody continent. But how can we explain this proliferation of armed conflicts? What caused them and what were their main characteristics? And what did the world's governments do to stop them? In this fully revised and updated second edition of his popular text, Paul Williams offers an in-depth and wide-ranging assessment of more than six hundred armed conflicts which took place in Africa from 1990 to the present day, from the continental catastrophe in the Great Lakes region to the sprawling conflicts across the Sahel and the web of wars in the Horn of Africa. Taking a broad comparative approach to examine the political contexts in which these wars occurred, he explores the major patterns of organized violence, the key ingredients that provoked them, and the major international responses undertaken to deliver lasting peace. Part I: Contexts provides an overview of the most important attempts to measure the number, scale, and location of Africa's armed conflicts and provides a conceptual and political sketch of the terrain of struggle upon which these wars were waged. Part II: Ingredients analyses the role of five widely debated features of Africa's wars: the dynamics of neopatrimonial systems of governance, the construction and manipulation of ethnic identities, questions of sovereignty and self-determination, as well as the impact of natural resources and religion. Part III: Responses discusses four major international reactions to Africa's wars: attempts to build a new institutional architecture to help promote peace and security on the continent; this architecture's two main policy instruments, peacemaking initiatives and peace operations; and efforts to develop the continent. *War and Conflict in Africa* will be essential reading for all students of international peace and security studies, as well as Africa's international relations.

Nuclear Weapons and International Law Charles J. Moxley, 2024-05-15 This book analyzes the facts and law as to nuclear weapons and the policy of deterrence. It demonstrates that such weapons cannot lawfully be used and that the policy of deterrence is risky and unlawful. It urges that the U.S. take the lead in delegitimizing these weapons and seeking abolition.

Authority, Ascendancy, and Supremacy Gregory O. Hall, 2013-11-12 *Authority, Ascendancy, and Supremacy* examines the American, Chinese, and Russian Big 3 competition for power and influence in the Post-Cold War Era. With the ascension of regional powers such as India, Iran, Brazil, and Turkey, the Big 3 dynamic is an evolving one which cannot be ignored because of its effect to not only reshape regional security but also control influence and power in world affairs. How does one define a global or regional power in the Post-Cold War Era? How do the relationships among the Big 3 influence regional actors? Gregory O. Hall utilizes country data from primary and secondary sources to reveal that since the early 1990s, competition for influence and power among the Big 3 has intensified and could result in armed confrontation among the major powers. He assesses the state of affairs in each country's economic, resource, military, social, demographic, and political spheres. In addition, events data which focuses on international interactions facilitates identifying trends in Big 3 interactions as well as their concerns and affairs with regional players. Opinion data

drawn from policy makers scholarly interviews and survey research data identifies foreign policy interests among the Big 3 as well non Big 3 foreign policy behaviors With its singular focus on American Chinese and Russian interactions policy interests and behaviors Authority Ascendancy and Supremacy represents a significant contribution for understanding and managing Post Cold War conflicts and promises to be an important book **A Conflict Perpetuated** Noam

Kochavi,2002-01-30 The first comprehensive account of China policy during the Kennedy years this study profiles John F Kennedy as a man whose inner struggles and disparate characteristics made for an unpredictable foreign policy While he was often a hostage to the Cold War to constrictive perceptions of the domestic climate and to the image of a predatory China Kennedy recognized Washington s finite capacity to shape events on the China Mainland With the possible exception of a preventive strike against China s nuclear installations he was also reluctant to run the risk of a military confrontation with Beijing On the eve of his assassination Kennedy may have even contemplated a China policy departure during his second term A calm appraisal of China s capabilities and intentions constituted the distinguishing feature of revisionist thinking during the Kennedy years The disjointed revisionist effort settled in late 1963 on a pedagogic course which still implied a search for American primacy The revisionist approach did ultimately facilitate the transformation of bilateral relations in the early 1970s From a shorter range perspective however the Kennedy era only added fuel to the fire of Sino American confrontation The Limited Test Ban Treaty accentuated the sense of encirclement and vulnerability in Beijing s psyche and clouds gathered ominously over Vietnam Kennedy does bear some responsibility for the bilateral impasse as he personified a decisionmaker so obsessed with the objective of deterrence as to overlook the security dilemma nonetheless Mao s preference for a radical course independent of Kennedy s conduct contributed as well Neither side was yet ready for a breakthrough **Patterns of Sustaining Peace** Julia Leib,2024-09-26 This book explores how to establish peace in

societies recovering from large scale armed conflicts by introducing the sustaining peace scale as a continuous measure for peacebuilding success Drawing on an extensive data collection of peacebuilding episodes over almost three decades the author analyses the impact of four peacebuilding practices international commitment power sharing security sector reform and transitional justice Having established the framework the author applies it to the peacebuilding processes in Sierra Leone and South Africa An important contribution to the literature on successful peacebuilding this book will be essential reading for peacebuilding scholars and practitioners *Securing Peace in Angola and Mozambique* Miranda

Melcher,2024-03-21 This book helps explain how and why there are such diverging outcomes of UN peace negotiations and treaties through a detailed examination of peace processes in the Angolan and Mozambican civil wars Does it really matter what s written on page 36 protocol V section III point 5 of a UN endorsed peace treaty Dr Miranda Ruwart Melcher shows that seemingly small details such as who wears suits who has toothbrushes and how specific words are translated between French and English can and have delayed peace or contributed to restarting wars Dr Melcher uses unique primary source

data including interviews with key actors who have participated in peace treaty negotiations as well as thousands of previously newly opened UN documents She argues that treaty specificity is an undervalued but important factor in researching the success or failure of peace processes The book offers new insights and policy recommendations for key details whose presence or absence can have a significant impact on how peace processes unfold

Nuclear Weapons and International Law in the Post Cold War World Charles J. Moxley, 2000-06-30 This book addresses the issue of the legality of the use of nuclear weapons under international law It includes forwarding remarks by Robert S McNamara David W Leebron and Kosta Tsipis Moxley analyzes the question in light of the July 1996 advisory opinion issued by the International Court of Justice the law as articulated by the United States and generally recognized facts as to the characteristics and effects of nuclear weapons He concludes that the use of nuclear weapons is per se unlawful under the rules of international law and facts recognized by the United States Nuclear Weapons and International Law in the Post Cold War World is an unprecedented exploration of the application of the necessity proportionality and discrimination of principles of international law to nuclear weapons

Funding Extended Conflicts Richard M. Miller, 2007-08-30 One aspect of war is often overlooked how much do they cost and how are they funded Funding Extended Conflicts develops a baseline on Federal spending for the two extended conflicts of the Cold War era Korea and Vietnam and compares them with the global war on terror including current outlays for Iraq and Afghanistan It also provides wartime cases that offer recommendations on how to pay for future wars and focuses on the length of the tails of such spending which are often omitted in the final analyses and distort funding estimates Background chapters examine financing and budget issues as well as problems associated with defining the real cost of

Korea Vietnam and the so called long war against terrorism and are complemented by an assessment of the open ended commitment to support homeland defense and conduct ongoing military operations in Southwest Asia One aspect of war is often overlooked how much do they cost and how are they funded Funding Extended Conflicts develops a baseline on Federal spending for the two extended conflicts of the Cold War era Korea and Vietnam and compares them with the global war on terror including current outlays for Iraq and Afghanistan It also provides wartime cases that offer recommendations on how to pay for future wars and focuses on the length of the tails of such spending which are often omitted in the final analyses and distort funding estimates Background chapters examine financing and budget issues as well as problems associated with defining the real cost of Korea Vietnam and the so called long war against terrorism and are complemented by an assessment of the open ended commitment to support homeland defense and conduct ongoing military operations in Southwest Asia
