Spiritual Healing Sarah Coakley,2020-10-15 Spiritual healing has been a cornerstone of Christian belief from its beginnings although there are various interpretations of what exactly it is and how it happens To address these questions the contributors to this volume come together to examine spiritual healing from a number of disciplinary perspectives How can such healing be explained through a scientific or medical lens What do biblical and historical instantiations of it tell us today And how are we to think of it as anthropologists philosophers or theologians Finally what does all this mean for those seeking spiritual healing for themselves or pastors walking alongside the afflicted Deftly edited by theologian Sarah Coakley Spiritual Healing offers a composite narrative that investigates the many intermingled factors at work in this intriguing phenomenon The result is a human story as much as it is a theological one satisfying discerning believers and skeptics alike in its rigorous pursuit of truth and meaning
