**The Vietnam War from the Rear Echelon** Timothy J. Lomperis, 2023-04-21 Timothy Lomperis knows the Vietnam War both as a soldier and as a scholar In the latter role he has published extensively including *The War Everyone Lost and Won* hailed as one of the best books ever written on that conflict Even though he served two tours in country during the war s most frustrating period from the infamous Easter Invasion through the Paris Peace negotiations this is the first time he has written about the war from such a personal perspective An intelligence officer at the Military Assistance Command Vietnam MACV Lomperis and his comrades were tasked with translating Washington war policy into action Lomperis provides a rare view of the war from the perspective of a rear echelon officer He and other so called REMFs were deeply involved in trying to devise and implement strategies that would the win the war This largely neglected perspective takes center stage in Lomperis s memoir presenting a seldom seen midlevel perspective that provides the missing links between the Washington Hanoi peace negotiations and the deadly battles between troops in the field In exposing the inner workings of a military headquarters during wartime Lomperis recounts the tensions of a command caught between the political imperatives of Washington and the deteriorating military situation on the ground Involved in the planning and execution of Nixon s 1972 Christmas Bombing Campaign designed to push the North Vietnamese into peace negotiations Lomperis sheds new light on Nixon s secret plan to end the war while offering rare glimpses of military operations and decision making on the ground in Saigon Giving color to the REMF story he also offers a portrait of life in wartime Saigon writing with genuine respect for and curiosity about Vietnamese culture And ultimately he describes his own moral conundrum as the son of missionaries and an initial Cold Warrior who undergoes a gradual disillusionment that resolves into peaceful reconciliation This incisive memoir is essential for better comprehending what the Vietnam experience was like for the large contingent of Americans who served there It suggests the need for some fundamental rethinking about Vietnam not only for the war s veterans but also for those concerned with the lessons it carries for U S involvement in current insurgencies

**A Cold War Tourist and His Camera** Martha Langford, John Langford, 2011-01-27 Cold War era imagery is defined by the striking contrast between the ideal of the nuclear family and the nightmare of nuclear annihilation In 1963 Warren Langford a Second World War air force veteran and career public servant travelled through Europe North America and Africa as part of the National Defence College s curriculum of Cold War training Langford never before much interested in photography bought a camera and produced some 200 slides of his travels In *A Cold War Tourist and His Camera* his art historian daughter and political scientist son bring his photographs an unexpected combination of iconic images of Cold War dangers and touristic snapshots back into view
