**Man and the Universe** Sir Oliver Lodge, 1909      *A Study Guide to Accompany the Dynamic Universe* C. D. Garmany, Stephen J. Shawl, 1983      Study Guide and Workbook to Accompany Zimbardo and Weber's Psychology, Second Edition Peter C. Gram, Philip G. Zimbardo, 1997

Psychology Third Edition builds upon the experience and reputations of Phil Zimbardo and Ann Weber with the addition of a new co-author Bob Johnson who has a wealth of teaching experience at the community college level. This briefer, less expensive book presents psychology in a meaningful, manageable format that focuses on the key questions and core concepts of psychology. Introductory psychology covers such a wide range of topics and issues that it becomes difficult for readers to see the forest for the trees. To make key psychological concepts more meaningful, the authors found inspiration in a classic chess study. This study showed that experts did no better than novices at remembering the location of pieces on a chess board when they were placed randomly. Only when the patterns represented actual game situations did they make sense and therefore become more easily memorable for the experts. Clearly, meaningful patterns are easier to remember and understand than random arrangements, and Psychology applies this by presenting the field of psychology in meaningful patterns to enhance comprehension. These concepts are then applied to readers' own lives, study skills and the world around them. Finally, Psychology integrates a cross-cultural and multicultural perspective to make psychology meaningful for everyone. For anyone interested in Introductory Psychology.

*Knowledge*, 1885      **Canadian-Daoist Poetics, Ethics, and Aesthetics** John Z. Ming Chen, Yuhua Ji, 2015-10-09. This monograph takes an interdisciplinary and cross-cultural approach to 20th and 21st-century Canadian Daoist poetry, fiction and criticism in comparative, innovative and engaging ways. Of particular interest are the authors' refreshing insights into such holistic and topical issues as the globalization of concepts of the Dao, the Yin Yang, the Heaven Earth Humanity triad, the Four Greats, Five Phases, Non-action and so on as expressed in Canadian literature and criticism, which produces Canadian constructed Daoist poetics, ethics and aesthetics. Readers will come to understand and appreciate the social and ecological significance of formal innovations, moral sensitivity, aesthetic principles and ideological complexity in Canadian Daoist works.
