- Explain Rococo style in architecture and painting.
 - Rococo appeared in France around 1700, primarily as a style of interior design. The French Rococo exterior was generally simple, and even plain, but Rococo exuberance took over the interior. The term Rococo was developed from the French word *rocaille* which means pebble. This term referred to the usage of small stones and shells that were used to decorate the grotto interiors.
 - Antoine Watteau is the painter that scholars most closely associate with the French Rococo. Watteau was largely responsible for creating a specific type of Rococo painting genre called a *fête galante* ("gallant [outdoor] party"). *Fête galante* paintings depicted the outdoor entertainment or amusements of French high society.

- How was the Enlightenment style a response to Rococo?
 - The Enlightenment encouraged criticism of the corruption of the monarchy and the aristocracy. Enlightenment thinkers condemned Rococo art for being immoral and indecent, and called for a new kind of art that would be moral instead of immoral, and teach people right and wrong.
 - Enlightenment thinkers rejected faith in favor of reason and championed an approach to the acquisition of knowledge based on empirical observation and scientific experimentation. Two important people of the Enlightenment were John Locke and Isaac Newton. In Newton's scientific studies, he insisted on empirical proof of his theories and encouraged others to avoid metaphysics and the supernatural in other words, realms that extended beyond the natural physical world.

- What was the "Natural" and how was it expressed in art?
 - The second key figure of the French Enlightenment, who was also an important figure in preparing the way ideologically for the French Revolution, was Jean-Jacques Rousseau.
 - Rousseau argued that the arts and sciences, society, and civilization in general had corrupted "natural man" meaning people in their primitive state. Rousseau's elevation of feeling above reason as the most primitive—and hence the most "natural"—human expression led him to exalt as the ideal the peasant's simple life, with its honest and unsullied emotions. Rousseau's views, popular and widely read, were largely responsible for the turning away from the Rococo sensibility in the arts and the formation of a taste for the "natural," as opposed to the artificial and frivolous. Basically the center of all art should be focused on nature alone.
