Constitutional Change in the Contemporary Socialist World Ngoc Son Bui, 2020-07-24 After the collapse of the Soviet bloc there are only five socialist or communist countries left in the world China Cuba Laos North Korea and Vietnam which constitute about one quarter of the world s population Yet there is little scholarship on their constitutions These countries have seen varying socioeconomic changes in the decades since 1991 which have led in turn to constitutional changes This book will investigate from a comparative and interdisciplinary perspective how and why the constitutional systems in these five countries have changed in the last three decades The book then breaks the constitutional changes down into four questions what are the substantive contents of constitutional change what are the functions what are the mechanisms and what are the driving forces These questions form a framework to process the changes the five countries have gone through such as making new constitutions amending current ones introducing more rights allowing citizens to engage in changes enacting legislation and defining the constitutional authority of the three state branches and their relationship with the Communist Party While all five countries have adapted their constitutional systems the degree mechanisms and influential factors are not identical and present considerable variations This book examines and explores these differences and how they developed
