1. What two technological developments contributed to the age of discovery?

Technological advancements in shipbuilding, navigation and weaponry allowed European expansion allowing them to travel further than they could before and accurately navigate the ocean.

2. How did the use of technology enable the Spanish to conquer the civilization of the Mayans, Incas, and Aztecs?

The advancement of guns was something the Aztecs did not have, and the Spanish was able to get information on the Aztecs and Incas through Mexico that were enemies of the Aztecs and Incans. Also, an unexpected advantage came when many of the opposition died from smallpox something Europeans had been immune too.

3. Why did the Portuguese take the lead in overseas exploration?
