Christian Conservative News Report:

Fundamentalisms and the Media Stewart M. Hoover, Nadia Kaneva, 2009-06-09 The turn of the twenty first century has seen an ever increasing profile for religion contrary to long standing predictions of its decline Instead the West has experienced what some call a realignment of religion where it persists in conjunction with other institutions and structures Outside the West religion is an ever more prominent force in social and political movements of both reform and retrenchment Across these contexts no issue in religion is of as much concern as fundamentalism or rather the fundamentalisms within various traditions which are seen to be fomenting religious social ethnic and political tension and conflict The contributions to this volume represent the first effort to look at fundamentalisms and the media together and address the resulting relations and interactions from critical perspectives of history technology geography and practice The result lays important groundwork for scholarship on these new and increasingly important phenomena God in the Corridors of Power Michael Ryan, Les Switzer, 2009-08-25 God in the Corridors of Power Christian Conservatives the Media and Politics in America is a comprehensive study of Christian conservative power in America s political culture how it was achieved how it is maintained and where it is going It came about in part because of an enduring influence in the school room the seminary and in the pulpit and in part because conservatives are so skilled at using commercial and non commercial media including religious media to disseminate their views to broader audiences Though their power has waxed and waned they continue to be a potent force in public policy today The authors argue that the astonishing electoral successes of Christian conservatives at all levels of national state and local government was made possible by linking political social media and religious interests with an emerging consensus about what constitutes a conservative mindset in American politics Christian conservatives unquestionably have been the most significant component in a coalition of religious conservatives traditionalist conservatives and neoconservatives that has driven the Republican Party now for almost two generations This multifaceted understanding of Christian conservative activists in religion and politics traces the impact Christian conservatives have had on American Christianity as a whole while also examining the limitations imposed on the Christian conservative agenda by American civil religion the Constitution and case law The authors explore women s reproductive rights in the debate over contraception and abortion and gay civil rights in the debate over gay marriage and family rights The debate over intelligent design and evolution is examined in the context of the campaign to transform public school education The run up to the wars in Afghanistan and Iraq is scrutinized against the background of the declared war on terrorism While the conservative religious and secular coalition within the Republican Party began to fragment even before the end of George W Bush s first term in office it remained a powerful force in the 2004 and 2008 elections The book concludes with some thoughts about the impact of Christian conservatives in politics media and religion in the future The Global Fight Against LGBTI Rights Phillip M. Ayoub, Kristina Stoeckl, 2024-06-18 Winner 2025 ISA LGBTQA Caucus Book Prize An in depth look at the global movement to

curtail LGBTI rights and how the LGBTI movement responds to it In the past three decades remarkable progress has been made in numerous countries for the rights of individuals marginalized due to their sexual orientation and gender identity The advancements in LGBTI rights can largely be attributed to the tireless efforts of the transnational LGBTI rights movement forward thinking governments in pioneering nations and the evolving human rights frameworks of international organizations However this journey towards equality has been met with formidable opposition An increasingly interconnected and globally networked resistance backed by religious nationalist elements and conservative governments has emerged to challenge LGBTI and women s rights even seeking to reinterpret and co opt international human rights law In *The Global Fight Against LGBTI Rights* authors Phillip M Ayoub and Kristina Stoeckl investigate this complex landscape drawing from over a decade of in depth fieldwork and over 240 interviews with LGBTI activists anti LGBTI proponents and various state and international organization actors The authors explore the mechanisms and strategies employed by the conservative transnational movement seeking to understand its composition and the construction of its agenda With a wealth of empirical evidence and insightful analysis this book is a valuable resource for scholars policymakers activists and anyone interested in understanding the ongoing global battle for LGBTI rights *Because We Are Human* Cynthia
