Christian Voting Guide 2008:

Godless Democrats and Pious Republicans? Ryan L. Claassen, 2015-06-15 This book argues that basic demographic forces are essential to understanding the rise of Evangelical Republicans and Secular Democrats 10 Issues That Divide Christians Alex McFarland, 2014-02-13 Is agreeing to disagree good enough for God's family Christians don't necessarily agree with each other when it comes to questions of religious pluralism homosexuality the role of government abortion and war Too often we manage these disagreements by ignoring them Yet we are called to engage the world for the sake of Christ How can we be effective if we avoid society's most pressing questions In 10 Issues That Divide Christians Alex McFarland challenges Christ followers to drill down to the biblical core of ten current issues such as social justice evil and suffering pornography and environmentalism among others and echoes the biblical invitation Come let us reason together Only by engaging the Scriptures deeply thinking clearly and speaking truthfully can we in God's family address our differences and discover the peace that comes with unity of purpose With the Bible as our guidebook and the Spirit as our guide we can respond to today's urgent questions with the mind of Christ Routledge Handbook on Elections in the Middle East and North Africa Francesco Cavatorta, Valeria Resta, 2023-03-31 This Handbook analyzes elections in the Middle East and North Africa and seeks to overcome normative assumptions about the linkage between democracy and elections Structured around five main themes contributors provide chapters detailing how their case studies illustrate specific themes within individual country settings Authors disentangle the various aspects informing elections as a process in the Middle East by taking into account the different contexts where the electoral contest occurs and placing these into a broader comparative context The findings from this Handbook connect with global electoral developments empirically demonstrating that there is very little that is exceptional about the Middle East and North Africa when it comes to electoral contests Routledge Handbook on Elections in the Middle East and North Africa is the first book to examine all aspects related to elections in the Middle East and North Africa Through such comprehensive coverage and systematic analysis it will be a key resource for students and scholars interested in politics elections and democracy in the Middle East and North Africa *Onward Christian Soldiers?* Clyde Wilcox, 2018-04-17 They have money influence power and they turn out to vote They are groups like Focus on the Family Family Research Council and Concerned Women for America all parts of the Christian Right But are they a serious threat to religious liberty bent on creating a theocratic state or the last defenders of religion and family values in America Bringing the story of the religious right up to the Obama administration this revised fourth edition explores the history of the movement in twentieth and early twenty first century American politics The authors review the expansion of the Christian Right through George W Bush's second administration and evaluate how the religious right fared in the 2006 and 2008 elections Although figureheads of the religious right remain in the news their power in Washington may be declining and the authors consider the fate of the religious right under the Obama administration Examining how the religious right both does

and does not fit into the proper role of religious groups in American politics Onward Christian Soldiers is an essential addition to the Dilemmas in American Politics series A Field Guide to the Culture Wars Michael McGough, 2009 Like any realignment in politics the Democratic takeover of Congress in the 2006 midterm elections inspired a raft of instant analyses One take on the results that is surely wrong is that the change in control of Congress and the spike in Democratic hopes for the 2008 presidential race mark an end to the culture wars that conventional wisdom blamed or credited for George W Bush's re election in 2004 This book sets the stage for a new consideration of the contemporary culture wars by examining their antecedents from the Scopes trial to Prohibition to the controversy over the Supreme Court's desegregation and school prayer rulings to loyalty oath battles of the 1950s to the pre Roe v Wade campaign to liberalize abortion laws Even during times of supposed conformism Americans have been presented with competing claims about what sort of culture this is and how and to what extent government should reflect and police values The author covers such topics as same sex marriage stem cell research intelligent design and other hot button issues that are debated not just between the religious and secular but more and more among the ranks of the religious themselves where a religious left has emerged to counter arguments from the religious right Anyone interested in the intersection of religion and politics in the rise of the so called moral majority and in the current state of affairs with regard to values and public life in America will gain a better understanding from reading this book *Religious Scandals* Judith M. Buddenbaum, 2009-09-03 This volume looks at headline grabbing scandals involving American religious figures from the 19th century to the present showing how the media and society in general reacted to these controversies Religious Scandals brings together real life controversies involving men and women of faith from the media frenzy over the 1811 New York blasphemy case of People v Ruggles that shaped American law for well over 100 years to the 2008 government raid on the fundamentalist Mormon Yearning for Zion community in Texas Religious Scandals focuses on two types of subjects religious figures whose lapses put them at the center of scandals involving sex money or crime and those who scandalized their fellow citizens by acting out according to their own religious beliefs Together these stories some familiar some little known offer a fascinating portrait of American religious culture as well insights into the role of the media in religious scandals constitutional protections of religious freedom and the overriding issue of public curiosity versus individual privacy **Prospect** ,2008 **Willamette Law Review** ,2008 **A Different God?** Craig L. Foster, 2008 **The Publishers Weekly** ,2008 *Holy Spirit, Holy Living* Antipas L. Harris, 2013-07-26 The language of holiness seems outdated It is a word that comes to us thwarted by a negative history associated with undesirable restrictions and oppressive legalisms What do you do with a term that has been negatively socialized even among churches when the God of the Bible clearly states that He wants His people to be holy Holy Spirit Holy Living aims to dust off the discarded idiom and rediscover the depth and splendor of holiness What are some practical implications for theological and spiritual practice Two broad categories express the particularity of the Church in the world As such the Church must

maintain peculiarity to the world First holiness properly understood speaks to being and acting in a way that reflects both a regenerated life in Christ and the ongoing renewal in Christ by the power of the Holy Spirit Secondly holiness as a lifestyle must include at least three principles rest being and doing These three standards undergird a life of conviction of faith and practice worship for God and service to others A holy life follows Christ and is Spirit filled It is unbent by society which is numb to what God wants *The Undecided Voter's Guide to the Next President* Mark Halperin,2007-10-16 Who s ready for the oval office They call it a horse race and in this election the candidates got out of the gate early But it s still hard to tell them apart and make a choice Mark Halperin veteran reporter and political analyst sizes up the White House hopefuls with intelligence insight and his trademark wit offering engaging in depth examinations of the histories qualifications agendas and personal beliefs of the major candidates including Hillary Clinton John Edwards Rudy Giuliani John McCain Barack Obama Mitt Romney and Fred Thompson as well as some dark horse contenders Among the features in this book Issue by issue charts defining where each candidate stands on the war in Iraq health care taxes the economy and other significant points of debate An assessment of each candidate s strengths and weaknesses A hypothetical glimpse into the future of each candidate s potential presidency Areas of possible controversy that could spark heated discussion and affect the outcome of the race Personal facts and anecdotes about each candidate including exclusive Q As covering everything from their junk food weaknesses to their biggest superstitions *Illinois Issues* ,2009 **National Journal** ,2008-07 *The Nation* ,2008 **UCLA Pacific Basin Law Journal** ,2011 *Christian Advocate and Journal and Zion's Herald* ,1898 **Politics** ,2008-02 **The Australian Christian Commonwealth** ,1901 *The Christian Life* ,1883
