Financial Management for Episcopal Parishes James B. Jordan, 2017-07-01 Designed to help parishes of all sizes establish good financial management processes and policies Experience shows that open and transparent churches engender a greater feeling of trust and willingness on the part of the donor The policies and processes in Financial Management for Episcopal Parishes which can be implemented by any size church allow clergy vestry and parishioners to establish and document procedures that enable a financially transparent organization The book defines the roles of the clergy staff vestry and congregation and outlines what needs to be done by them to design and implement a system of checks and balances for financial oversight and stewardship in order to protect donations and assets Throughout the book real life examples of processes and procedures that did not work and why make for enjoyable reading of an otherwise business like subject Every reader will recognize some of them in their own church life

EU, Security and The Eastern Partnership Christian Kaunert, Giselle Bosse, Alena Vieira, 2024-11-08 This book connects the scholarly discussions on security and resilience by examining the various definitions and meanings of the terms in the EU's Eastern Partnership EaP policy and in what ways the EU has attempted to define the relationship between security and resilience in its official rhetoric and in policy practice The Russian invasion of Ukraine in February 2022 has largely been viewed as an extraordinary resilience test for the EU The war has unleashed multiple crises ranging from security and asylum to energy and the economy in turn raising questions not only on how the EU can ensure the resilience of its eastern partners but also questions existential to the EU such as institutional and policy reform further EU enlargement and the EU's role in a rapidly changing global context of polarisation and fragmentation The chapters in this edited volume draw on a diversity of original conceptual and theoretical frameworks that are combined with an empirical analysis of often overlooked dimensions of EU's policy towards the EaP countries drawing on the original data collected by the authors including the semi structured interviews In light of the aforementioned challenges the chapters to this book have only increased in relevance pointing to pathways and opportunities for the EU to strengthen the resilience of its eastern partners and its own resilience in the future and inviting policy makers and scholars to reflect on potential pitfalls contradictions and limitations of EU resilience building This book will be beneficial to students scholars and academics interested in European Studies Politics and International Security The chapters in this book were originally published in the Journal of Contemporary European Studies
