

Internal Controls in United Methodist Churches

Basic Goals and Recommendations for All Churches

(prepared by Audit Committee of Arkansas Conference of the United Methodist Church)

The church has a judiciary responsibility to its donors to ensure that the resources made available to the church are used in a manner consistent with the church's mission and any donor restrictions. Therefore, every church, regardless of size, should have a system of internal controls. Objectives of internal controls are:

- prevent loss or theft of the church's assets
- minimize the opportunity for an employee or volunteer to steal or misuse the assets and/or records of the church
- provide timely and accurate information to management; and
- ensure compliance with laws and regulations

The goal of a sound system of internal control is to balance asset protection with efficient operation. Only those controls in which the benefits outweigh both the financial and emotional costs should be implemented. Often, internal controls are installed due to the fear of fraud or in response to fraud. Many people may resent the discussion of controls. However, a system of internal controls benefits not only the church but also the employees and volunteers of the church. The employees and volunteers can be protected from false accusations of fraud or misuse of assets.

Cash Receipts

The goals for internal controls over cash receipts are:

- to protect all revenue
- to record all receipts
- acknowledge contributions and any restrictions on contributions
- to comply with Internal Revenue Service requirements

Church offerings make up the majority of cash receipts. Some recommendations are:

- Always follow the principle of two - At least two people should always collect and count the offering. Offerings should never be left in the possession of only one person. Also, the collection/count teams should be rotated and the same individuals should not always be paired together.
- Count the offering as soon as possible. The shorter the length of time between the receipt of funds and counting it, the potential for mishandling the funds decreases.
- Count in a secure area - No one should be allowed in the count room other than those counting. Also, coats, purses, or briefcases should not be allowed to be brought into the count room.
- Deposit all offerings intact - All offering should always be counted and deposited intact. This means not allowing cash in the offering to be used to pay church expenses or

Audit. Review. Compilation. What's the Difference? James Ulvog,2014-01-17 Your CPA firm could provide one of several levels of services when you hired them to look at your financial statements and issue a report They could perform an audit or a review or a compilation There won t be big visual differences in the report they issue but there will be huge differences in cost The reason you get the CPA s involvement in the first place is to communicate your financial information to outside parties There is a huge difference in the comfort level those outsiders get from reading the CPA s report So of an audit review and compilation which should you get It depends This book will help you understand the differences between these three very different services so you can understand the conversation with your CPA and can better determine what services you need Tragedy of Fraud: The Ripple Effects From Fraud and the Wages Earned James Ulvog,2013-11-20 Just

like throwing a stone into a calm lake produces ripples all over the water fraud creates widespread ripples Chapter 1 discusses the tragic effects of a fraud in a local church The damage spreads out to harm a lot of people The wide ripples in the life of the fraudster and surprise victims are rarely seen Chapter 2 discusses the wages of fraud Wages are something we work for deserve and are entitled to Likewise in a fraud there are wages rightfully earned that will be paid in full Wages for a mayor include jail publicity loss of employment bankruptcy and divorce Chapter 3 looks at the fraud in the mayor s office as a case study of why frauds in general are difficult for an auditor to find Corruption frauds are even tougher to uncover Chapter 4 discusses the three sides of the fraud triangle and what organizations can do to minimize the factors When opportunity motivation and rationalization get together the conditions are set for a fraud **Guidelines Finance** Cokesbury,2016-11-15
