Child Safety Guidelines for Local Churches Roger N. McNamara, 2010-10 Child Safety Guidelines for Local Churches deals with the sensitive subject of child sexual abuse and what churches can do to protect children under their care while at the same time minimizing their own liability Prevention and training are critical elements in developing a structure that ensures the safety of children while they are in God's house Sadly many churches are unprepared to combat the possibility of the unthinkable happening to one of their precious little ones By not taking reasonable precautions they not only endanger the welfare of their youngsters but are subject to charges of gross negligence and significant financial judgments against their congregations The author outlines numerous steps that any congregation can take to protect both the children and churches they serve ROGER MCNAMARA is a veteran pastor missionary and church planter with more than forty six years of experience in local church ministry in Latin America and the United States He has started and worked in half a dozen churches over the past four decades and now serves as the Church Planting Training Specialist for Baptist Mid Missions In this capacity he works with churches and church planters throughout the United States and Canada teaching training and mentoring church leaders He also serves in a number of leadership positions within the Baptist Mid Missions TEAM NORTH AMERICA as well as the registrar for the School of Church Planting He has published two other books and several leadership training manuals

 Early Parenthood Malcolm Hill,2023-02-13 Originally published in 1987 Malcolm Hill examines the different ways in which
 parents share responsibility for looking after their pre school children with other people whether members of their social
 networks formal groups or paid carers He also looks at the reasons parents give for choosing and changing their particular
 arrangements In this way he provides insights into a range of ideas which ordinary members of the public have about
 children s needs the rights and responsibilities of mothers and fathers and how children think and feel Marked differences
 are described in the social relationships of families and in notions about who is acceptable as a substitute carer for children
 in what circumstances and for what purpose Several of these contrasts are linked to attitudes and life conditions which are
 affected by social class The book identifies possible consequences for individual children s social adaptability resulting from
 these patterns of care It suggests that people working with the under fives could profit from adapting their activities and
 services to children s previous experiences of shared care and families differing expectations about groups for children **A
