George Eliot's 'The Lifted Veil' Franco Marucci, 2022-01-31 The negative historical judgment given to George Eliot's The Lifted Veil amounts nowadays to a gross critical blunder and in the last three decades the story has been firmly reinstated in Eliot's major canon The premise of the present book is that George Eliot's oeuvre is a compact macrotext where themes motifs patterns and cultural and personal archetypes recur with variations and that The Lifted Veil functions as the linchpin of this oeuvre A sequential approach to the story is authorized by the use of a mimetic enunciation that simulates a gradual definition of events places and characters as they have appeared to the narrating I in the course of time until the moment of the enunciation Contextualizing The Lifted Veil means placing it within Eliot's oeuvre and against the background of Victorian mid century fiction in a further meaning seeing it as intersecting various contemporary genres and subgenres such as that of the European and American literature of the veil that of the archetypal icon of the femme fatale that of Wilkie Collins s dead secret novels The most significant facet that critical literature on The Lifted Veil has tended to overlook is however the encrypting of the experience of a failed religious conversion and the foreshadowing of the search for a spiritual and racial identity of Daniel Deronda the hero of Eliot's final novel The Walled Arab City in Literature, Architecture and History Susan Slyomovics, 2013-11-05 This book offers a multidisciplinary approach to the medina the traditional walled Arab city of North Africa The medina becomes a concrete case study for comparative explorations of general questions about the social use of urban space by opening up fields of research at the intersection of history comparative cultural studies architecture and anthropology Essays by American European and North African scholars demonstrate a variety of sources and theoretical approaches now being used in writing historical narratives framed within the city space They shed light on recent studies by anthropologists regarding social praxis within the urban context and analyze the urban experience of the medina and the casbah as they are represented in visual and material culture City of the Good Michael Mayerfield Bell, 2020-04-28 How we came to seek absolute good in religion and nature and why that guest often leads us astray People have long looked to nature and the divine as paths to the good In this panoramic meditation on the harmonious life Michael Mayerfeld Bell traces how these two paths came to be seen as separate from human ways and how many of today s conflicts can be traced back thousands of years to this ancient divide Taking readers on a spellbinding journey through history and across the globe Bell begins with the pagan view which sees nature and the divine as entangled with the human and not necessarily good But the emergence of urban societies gave rise to new moral concerns about the political character of human life Wealth and inequality grew and urban people sought to justify their passions In the face of such concerns nature and the divine came to be partitioned from the human and therefore seen to be good but they also became absolute and divisive Bell charts the unfolding of this new moral imagination in the rise of Buddhism Christianity Daoism Hinduism Jainism and many other traditions that emerged with bourgeois life He follows developments in moral thought from the religions of

the ancient Sumerians Greeks and Hebrews to the science and environmentalism of today along the way visiting with contemporary indigenous people in South Africa Costa Rica and the United States City of the Good urges us to embrace the plurality of our traditions from the pagan to the bourgeois and to quard against absolutism and remain open to difference and its endless creativity The City of Enticement Dorothea Gerard Longard de Longgarde, 1912 The Veil of Isis Thomas Ebenezer Webb, 1885 Bulletin of the Public Library of the City of Boston Boston Public Library, 1908 Catalogue of the Library of the Corporation of the City of London.
