Civic Education for Junior Secondary Schools is an exceptional course in Civic Education for Junior Secondary School Students. The course has been written in full compliance with the Basic Education curriculum provided by the Nigerian Educational Research and Development Council and should fully equip the students for the Junior Secondary School Examination. Every book in the course has been written in simple language to make it easy for the JS Students to understand. Each topic in every book has been fully developed with examples the students can easily grasp and identify with. Very clear apt pictures have also been used to illustrate the lessons in the books. The authors are highly experienced teachers and WAEC/NECO examiners who have also authored several highly successful Secondary School textbooks.     *Perceptions of Implementation of Civic Education Curriculum in a Suburban School District* Sheena Rachel Jacob, 2020. The purpose of this qualitative research study was to explore and develop an understanding of teachers and coordinator perceptions of a civic education and to analyze how the program was implemented in a suburban school district. This qualitative case study explored the experiences of one school district's civic education program and was informed by interviews, observations, and documents. The researcher interviewed a K-12 social studies coordinator and two teachers. The researcher also observed four civic education classes within the school district. Finally, the researcher analyzed documents that comprised the syllabus for the 12th grade Civic courses, student work from 12th grade Civics courses and activities and lessons from 5th grade classes. The specific research questions were: 1. What are the perceptions of the implementation of a civic education program for the K-12 social studies curriculum in a suburban school district? and 2. How is the civic education program in K-12 social studies implemented? The study conclusions identified the following themes: civic engagement which incorporates student activities within allotted instruction time and outside of school time that promotes students' active participation and collaboration with local and school officials on issues concerning students and community; civic identity and commitment which involves implementing a program where all stakeholders (building and central administrators, teachers, community members) are all committed and supportive; civic knowledge which involves the ability to understand what civics means and to implement the curriculum within the time allotted for the subject; social studies to be taught and civic contexts/structures which involves having students demonstrate the ability and commitment to collaboratively work across and within community contexts and structures to achieve a civic goal. From the study's conclusions, it is evident that the allocation of appropriate and sufficient resources in addition to district and community support is essential to ensure that civic education is successfully

implemented in K 12 schools Future research can add to these findings by exploring how districts can implement a K 12 civic education curriculum for all students including analyzing short and long term effects of implementing such a program at the local state and national levels      *Curriculum for Justice and Harmony* Keith C. Barton,Li-Ching Ho,2021-09-24 This book argues that the curriculum must prepare young people to take action on issues of justice and harmony societal ideals that are central to all communities Effective action depends on deliberation characterized by emotional commitment collaborative problem solving and engagement with diverse perspectives and forms of expression      *Becoming Active Citizens* Tom Driscoll,Shawn W. McCusker,2023      *Teaching Civic Engagement Across the Disciplines* Elizabeth C. Matto,Alison Rios Millett McCartney,Elizabeth A. Bennion,Dick W. Simpson,2017
