Civic Education Brief Text For Ss3 Students:

Civic Education for SS 1-3 Nigeria. Federal Ministry of Education, 2009 **Essential Civic Education for Senior Secondary Schools (SS1, SS2 & SS3)** Gbenga M. Babalola, Igbinobu Chuks, 2015 *We the People--*, 1988 Civics textbook with an emphasis on the U S Constitution and Bill of Rights *We the people-- project citizen* Center for Civic Education (Calif.), National Conference of State Legislatures, 1997 **Civic Responsibilities** Kenney, 2014-08-01 As Americans we all have civic responsibilities to our country These might include serving on a jury voting during an election obeying the laws and being a good citizen by volunteering or helping those in need This book also discusses other civic responsibilities such as paying taxes serving our country during times of conflict or war and how our freedom comes with a price Learn all about how you can be a good citizen in the wonderful country we call home This book will allow students to determine the main idea of a text recount the key details and explain how they support the main idea **We the People**, 2011 Introduces the history and principles of constitutional democracy Teacher s ed includes performance assessment materials and a bibliography of children s literature **National Standards for Civics and Government** Center for Civic Education (Calabasas, Calif.), 1994 *Community Civics and Rural Life* Arthur William Dunn, 2018-07-14 *Community Civics and Rural Life* by Arthur William Dunn This book like the author s earlier one *The Community and the Citizen* is a community civics text Two purposes led to the preparation of this second volume The first was to produce a text that would meet the needs of pupils and teachers who live outside of the environment of the large city Training for citizenship in a democracy is a fundamentally identical process in all communities whether urban or rural But if it really functions in the life of the citizen this process must consist largely in deriving educational values from the actual civic situations in which he normally finds himself Moreover instruction that relates to matters that lie beyond immediate experience must nevertheless be interpreted in terms of that experience if it is really to have meaning At least half of the young citizens of America live in an environment that is essentially rural Hence their need for civics instruction that takes its point of departure in and refers back to a body of experience that differs in many ways from that of the urban citizen This does not imply that urban conditions should be ignored in the civic education of the rural citizen On the contrary one of the things that every citizen should be led to appreciate is the interdependence of country and city in a unified national life In the present volume emphasis is given to this interdependence For this reason and because of the fundamental principles which have controlled the development of the text it is believed that the book may perform a distinct service even in city schools The second purpose in undertaking the present book has been to make as obvious as possible the elements which in the author s judgment characterize community civics and give it vitality *The Community and the Citizen* was a pioneer among texts that have sought to vitalize the study of government and citizenship The term community civics became current only at a later time to designate the new civics which that book represented It seems to the author however that many teachers and others have seized upon some of the more

incidental even though important features of the new civics without apparently recognizing its really vital characteristics We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience
