Sheltered Content Instruction Jana Echevarria, Anne Wooding Graves, 2007 This book clearly defines sheltered instruction or Specially Designed Academic Instruction in English SDAIE and provides strategies for its successful implementation in the K-12 classroom Unlike any other book on the market this popular resource focuses on using sheltered

instruction with students of varying abilities making it a unique tool for teachers. Renowned authors Jana Echevarria and Anne Graves address the important overlap between sheltered instruction and special education adaptations. The Third Edition of Sheltered Content Instruction captures the vitality of modern classrooms by speaking specifically to instruction in the content areas and confronting the fact that students learning English might struggle in those subjects. The authors provide practical methods that demonstrate how to implement this type of instruction with a full range of learners. A classic text in the field, the Third Edition of Sheltered Content Instruction is comprehensively revised and updated in a new full workbook size format. One important function of the Third Edition is to provide teachers with the support and direction needed to undertake the sheltered approach. Specific examples of sheltered content instruction and scenarios depicting classroom interaction during this type of instruction provide models for teachers and those preparing to teach. Case studies and vignettes illustrate this interaction for the reader.
