

Compare/Contrast Two Friends

2 pages | 255 words

In this world, we need to know and make a difference between a good friend and a bad friend. Friends are useful, helpful, and bring happiness into our lives. From a personal point of view, some people like to make friends, while others prefer to be solitary. Firstly, friends teach us valuable lessons in life, and we need to have trust in them. We should talk to friends with whom we feel comfortable and have private conversations, which are a sign of a great friend. A good friend is always there for us, in good and bad times, and they are loving, helpful, and great to have in our lives. On the other hand, some people have bad personalities, and we need to keep away from them. They can make us feel bad, useless, unhappy, and dangerous. Bad friends always seem to have problems, and they can be a danger to us. There is a big difference between a good friend and a bad friend. We can call bad friends enemies as they usually create trouble for us and cannot be trusted. When comparing abusive friends with good friends, we find many differences. Good friends are always honest, whereas bad friends can lead us down dangerous paths and are dishonest with themselves. In conclusion, finding good friends can be challenging, but it is easier to differentiate between bad friends and good friends. In my opinion, we should experience making friends until we find great friends who can make us happy, trustworthy, and comfortable with ourselves.
